

In November **2016** Senator Hillary Clinton did not win the presidency. The new president was Mr. Donald Trump.

Mr. Trump took the oath-of-office on January 20 2017. A mere ten days prior, on January 10, Mr. Anthony Fauci made the following statement at a private meeting in Washington DC, quote:

“There will be a challenge for the coming administration in the arena of infectious diseases, both chronic infectious diseases in the sense of already ongoing disease, and we have certainly a large burden of that, **but also there will be a surprise outbreak.**”

Mr. Anthony Fauci is a graduate of Cornell University, the same school that we will discuss later.

At the beginning of the 2020 presidential election cycle, in late October 2019, Mr. Fauci attended another private meeting, this time within walking distance of Pfizer headquarters in New York City.

Seated on-stage next to Mr. Fauci was National Institute of Health Director, Dr. Rick Bright. Remember the date, late October 2019. At this meeting Dr. Bright announced the following:

“There might be a need, or even an urgent call for an **entity of excitement** out there, that’s completely disruptive, that’s not beholden to bureaucratic strings and processes...But it is not too crazy to think that **an outbreak of a novel avian virus could occur in China somewhere . . .**”

Less than two months after that statement, China announced that workers at the Wuhan Laboratory had become ill. In late December 2019, the world was told that a brand new virus did not come from that lab, but came from a local fish market. That was a lie.

The “**entity of excitement**” that Dr. Bright announced in late 2019, was the “**surprise outbreak**” that Mr. Fauci had announced just before Trump took office back in 2017.

The “**novel avian virus**” that Dr. Bright announced did not come from the Chinese fish market. It came from a contract that Mr. Fauci had secretly funded with EcoHealth Alliance.

The “**novel avian virus**” was not “**the China virus**” as President Trump calls it; it was the **Fauci virus**.

It was a contract engineered pathogen that was **sold to the public as the “COVID-19 virus.”**

In January 2024 Mr. Fauci testified behind closed doors at Congress. Congresswoman Marjorie Greene explained what Fauci admitted to behind closed doors, quote:

“I think what has taken-me-back is the fact that Dr. Fauci fully believed in **creating or enhancing viruses** using the Gain of Function (GoF) research or that capability **in order to create vaccines.**”

Congresswoman Greene continues from there, but she concludes with:

“And I think I can speak for many Americans, when I can say ‘*absolutely*’ that he belongs in jail for that.”

Right after that closed door testimony by Mr. Fauci, in late January 2024, the following headlines erupted:

**“New Documents Reveal that 2018 Wuhan Lab
Blueprint for Making Virus PERFECTLY
MATCHES COVID”**

This past June 2026, **Director Tulsi Gabbard of the US Office of National Intelligence** released documents that Mr. Fauci desperately wanted hidden from the public.

Director Gabbard explains, **quote:**

“Dr. Fauci’s close relationship with the intelligence community enabled him to assume three key roles that shield him from scrutiny:

FIRST, Dr. Fauci funded dangerous gain-of-function coronavirus research linked to Big Pharma and their pursuit of universal vaccines, worth TRILLIONS of dollars.

SECOND, Dr. Fauci was the behind-the-scenes advisor who, along side his hand-picked so-called experts, pushed the intelligence community to endorse a natural animal origin to hide his dangerous gain-of-function research that he funded using taxpayer dollars. All of this in a deliberate attempt to cover up the truth and shift the blame and attention away from Fauci’s own actions.

THIRD, Dr. Fauci became the nation’s pandemic pundit, and he publically pushed lies, disinformation, and censorship using every platform available.”

But there is a man who also attended Cornell University, a man that has interacted with Mr. Fauci for decades. Long before so many people, this man warned the nation and the world what was coming. He provided great details and overwhelming proof. But key people ignored him.

In April 2020, with the pandemic just beginning, this man **wrote directly** to President Trump. In April 2020, the only man to do so in writing, he told President Trump::

“DISMISS FAUCI!”

President Trump ignored this man, and the country and the world has paid a terrible price as a result.

In July 2020, after the new virus had its new name, this man declared openly, remember that date, **July 2020**:

“The COVID-19 ‘vaccine’ was not created in response to the SARS-CoV-2 virus, but the exact opposite.”

After making that statement he was criticized severely, and discounted as a “nut.” But not one of the MANY statements this man has made regarding COVID-19 turned out to be false, NOT ONE!

Had the Nache family known of this man, and known of his COVID-19 work, and most importantly known of his Spirit, Jummai would not have suffered so terribly.

Let us give you our personal perspective on a man named Paul Sheridan.
