Dear Mr. Trump :

On 25 April 2023 “*Letters to Trump*” began selling for nearly \$100.00. Not included in your book are the many letters I sent to you during calendar year 2020 ; all carried dire warnings about **a member of your Health and Human Services staff**. My letters conveyed an urgent recommendation:

RETIRE FAUCI !

That recommendation was not acted upon . . . the nation and its people have suffered ever since.

Immediately after your declaration of a “national emergency,” I forwarded my *first* COVID-19 letter of 12 April 2020; it reviewed the 12 January 2017 plans of **your subordinate, Mr. Anthony Fauci** :

“There will be a challenge (for) the coming Administration in the arena of infectious diseases, both chronic infectious diseases in the sense of already ongoing disease, and we have certainly a large burden of that, but also there will be a surprise outbreak.”

Two years later, 29 October 2019, two of **your subordinates** staged an event in our birth city of New York; a short walk to Pfizer headquarters, an even shorter walk to Weill-Cornell Medical College. Seated adjacent to Fauci was **another subordinate**, Dr. Rick Bright, Director of the Biomedical Advanced Research and Development Authority (BARDA) :

Described by you several times as “disgruntled,” Dr. Bright repeatedly attacked your person and support for hydroxychloroquine; a protocol that was the focus of “research” orchestrated by Fauci and Surgisphere. That “research” was *not* incompetent; **it was criminal fraud** . . . So fraudulent, that on 4 June 2020 *The Lancet* was immediately forced to retract the Fauci/Bright anti-hydroxychloroquine fairy tales.

Bright was the central figure in a docudrama flop called, *Totally Under Control*. That flop never mentions a conference of 18 October 2019 where COVID-19 criminals swarmed for EVENT 201; that Bill Gates funded ruse was advertised as a “high-level pandemic exercise” (See Page 5 below). But the docu-flop also never discusses the *pre*-COVID-19 promotions by Dr. Bright, of 29 October 2019 at the Milken Institute :

*“There might be a need, or even an urgent call for **an entity of excitement** out there, that’s completely disruptive, that’s not beholden to bureaucratic strings and processes...But it’s not too crazy to think that **an outbreak of a novel avian virus could occur in China somewhere . . .**”*

On the first page of my letter to you of 18 September 2020 I stated (screenshot) :

Your phrase “inherited him” might be appropriate to a stray animal that you decided to take on.

Your “inherited him” phrase should *not* be in-reference to a person that resides in one of the most crucial and powerful positions in your Administration. That position should be staffed with a person **openly and enthusiastically praised by you . . .** it should be someone with a reputation for selfless public service to America, a record untainted by the mere possibility of surreptitious agenda; the person should possess an unrivaled and unassailable history of professional conduct and competence . . .

You inherited far more than Mr. Anthony Fauci. Unless you perform strenuous corrective actions, and speak with conviction and integrity regarding the second greatest crime in human history; your inheritance will also include connection of the Trump name *to these five COVID-19 issues* (at a minimum) :

Subject 2, Subject 3, Subject 4, **the portent of Enclosure 2**, and now the legalistic rigor of Reference 1 :

Paxton Launches Investigation into Gain-of-Function Research and Misrepresentations by Covid-19 Vaccine Manufacturers

"The development of the Covid-19 vaccine, and the representations made by and knowledge of Pfizer, Moderna, and Johnson & Johnson, are of profound interest to the public's health and welfare. This investigation aims to discover the truth," said Attorney General Paxton. "This pandemic was a deeply challenging time for Americans. If any company illegally took advantage of consumers during this period or compromised people's safety to increase their profits, they will be held responsible. If public health policy was developed on the basis of flawed or misleading research, the public must know. The catastrophic effects of the pandemic and subsequent interventions forced on our country and citizens deserve intense scrutiny, and we are pursuing any hint of wrongdoing to the fullest."

This is not diatribe; **indeed I am proposing the exact opposite.** The Civil Investigative Demand, filed on 1 May 2023 by the good Attorney General Ken Paxton of Texas, presents a forum and opportunity wherein you can enact corrective actions, especially regarding **the pre-meditated COVID-19 related deceptions and crimes perpetrated against the Office of the President of the United States of America . . . and its former legitimate office holder, Mr. Donald J. Trump.**

INTERMISSION ONE

Bill 'EVENT 201' Gates, the psychopath that advocates blotting out the Sun, speaking on "vaccine" safety :

"So the second time I saw him **(President Trump)** was the March after that, and so March 2017 in the White House. In both of those two meetings he asked me if vaccines weren't a bad thing, because he was considering a commission to look into, uh, ill effects of vaccines, and somebody, I think his name was Robert Kennedy Jr., was advising him that vaccines were causing bad things. And I said, *'No, that's a dead end. That would be a bad thing, don't do that.'* "

History shows you took the advice of a psychopath, who continues to **laugh all the way to the WEF bank.**

ON NOTICE – Mr. John P. Moore – “The Trump Pandemic”

Of all the despicable self-absorbed people I have endured since enactment of their “*entity of excitement*,” none are more **representative** than an NIH grantee parasite named Mr. John P. Moore:

Shown with “science writer” David Levine, during their mRNA needle promotional gala of 21 January 2021, Moore is **directly connectable** to the horror implied by, and resulting from, the following:

COVID-19 Vaccination Record Card

Please keep this record card, which includes medical information about the vaccines you have received.
Por favor, guarde esta tarjeta de registro, que incluye información médica sobre las vacunas que ha recibido.

ON NOTICE – Mr. John P. Moore – “The Trump Pandemic”

But to Moore, a “consultant” to the Pfizer-BioNTech profiteers, the above medical record of Mrs. Jummai Nache, the focus of Subject 4, is to be derided as an effort by the undersigned to **“stop the steal” (!?)**. See Page 8 below.

Far beyond incompetence, far beyond mere callousness, Moore’s convoluted logic requires explanation ; contextualized by a screenshot from his Weill-Cornell Medical College (WCM) webpage:

EXTERNAL RELATIONSHIPS

Relationships and collaborations with for-profit and not-for-profit organizations are of vital importance to our faculty because these exchanges of scientific information foster innovation. As experts in their fields, WCM physicians and scientists are sought after by many organizations to consult and educate. WCM and its faculty make this information available to the public, thus creating a transparent environment.

 **Consultant:** BioNTech SE; Marks & Clerk Law LLP

“Transparent environment”?!? COVID-19? A few samples for Mr. Moore :

Announcement by Mr. Anthony Fauci of a “surprise outbreak” in January 2017, immediately after their candidate failed to get elected in 2016 ?

Late 2019 “entity of excitement” psychic premonitions by HHS clerks ?

Furin spike protein cleavage sites engineered by fish-eating Chinese bats ?

“Vaccine development” mere weeks later, in early January 2020, despite zero SARS-CoV-2 sequence disclosure from those Chinese bats ?

Blatant fraud of using the PCR process that declared “millions of infections” ?

COVID-19 “national emergency” for lethality equivalent to the common cold ?

Fauci/Bourla/FDA conspiratorial postponement of Pfizer-BioNTech “vaccine trials data” until after the 2020 presidential election ?

“Independent” FDA mRNA approval meetings . . . with Pfizer in-the room ?

Fraudulent ‘Emergency Use Authorization’ (EUA) approval the very next day ?!

Liability Immunity granted to Moore EUA clients such as Pfizer-BioNTech ?!

But perhaps the most representative/indicative of Moore’s “transparent environment” involves his emails.

ON NOTICE – Mr. John P. Moore – “The Trump Pandemic”

Within proverbial seconds, after the fraudulent FDA EUA of Pfizer mRNA needles on 11 December 2020, Mr. Moore of Weill-Cornell Medical College was “consulting” with any media outlets that he could muster. Similar to Anthony Fauci, **Mr. Moore began exposing his true role as sales & marketing rep for Big Pharma** . . . appearing first-off in the Cornell Daily Sun . . . a mere six days after the EUA :

The COVID-19 Vaccine, Explained by Cornell Virologists

By Srishti Tyagi

Enduring the customary adolescent diversionary pre-emptive goo (terms such as “vaccine hesitancy” and “rampant misinformation,” etc.), the reader is awestruck with the expertise presented by Mr. Moore.

Prior to my preliminary questions to Moore, prudence demanded that I await **real-world** “vaccine” data; especially of the sort later **disclosed by the court order of Texas Judge Mark Pittman**.

Prior to the Pittman order, on 2 January 2022 I sent a polite email to Moore (at his Weill-Cornell office), asking **three very simple questions**. Although I restricted my questions to matters pre-ambled by his quotes in the article above, **the following is a screenshot of Moore’s email response** :

From: John P Moore [<mailto:jpm2003@med.cornell.edu>]
Sent: Sunday, January 02, 2022 1:56 PM
To: Paul V. Sheridan

Subject: The COVID-19 Vaccine, Explained by Cornell Virologists (Article)

Mr. Sheridan,

A quick Google search shows you to be a member of the ultra-right, anti-vaccine, “stop the steal” (sic) movement that has caused so much damage to our nation during the pandemic, not least by causing so many unnecessary COVID-19 deaths via the spread of lethal disinformation. I have attached three articles that you should read as you clearly need exposure to fact-based information. But as I have no interest in a discussion with someone who is so entrenched in dangerously anti-social activities I have blocked your email address - so there is no point to your replying to my email.

John Moore

Of course, there is no such “Google search.” Of course **none** of the obtuse nonsense in his “fact based” articles were even remotely responsive to my questions. **Implicitly**, Moore refused to respond with any degree of integrity, let-alone decency. The email exchange and the Cornell Daily Sun article are enclosed.

ON NOTICE – Mr. John P. Moore – “The Trump Pandemic”

In part, this letter serves to place Moore ON NOTICE. His vile response to my email is characteristic of those directly/indirectly responsible for Enclosure 2. That Moore is connectible to Subject 4 is established by the RICO crimes that he and his ilk influenced/promoted, especially in early 2021. That the poisoning of Mrs. Jummai Nache and the Moore mRNA video of 21 January 2021 is **proximate and legally causative** is obvious . . . but full document discovery under Reference 1 will obliterate the anticipated defense posturings that this proximity is merely coincidental or circumstantial.

Lashing out with adolescent *deflective* email temper tantrums, while feigning concern about “so many unnecessary COVID-19 deaths via the spread of lethal disinformation,” Moore (and his brethren) insidiously **exemplify** that very lethality . . . the factual history of COVID-19 and its so-called “vaccine,” and the true culprits of disease politicization, were and are now increasingly exposed . . . Moore is not merely associable with disease politicization and its results (Subject 4, Enclosure 2, etc.), **he is endemic to it.**

The treasonous criminal that defiles our White House, is an unprecedented embarrassment, but was lauded by Moore-types for his promise to **mandate** mRNA needles, was “inaugurated” on 20 January 2021. Clearly orchestrated, the following premeditated **Moore slanders levied against the Trump family name . . . the following Moore quote occurred as part of his mRNA sales video the very next day !**

“Lack of leadership. Lack of discipline in the population. A ‘devil may care’ attitude in too many parts of the country. The ‘coronavirus isn’t real.’ Ya know, a lot of us privately called it ‘the Trump Pandemic,’ because Trump had a lot to do with the outright failure; his failure to do anything about it (garbled), ‘the Trump Pandemic.’ If he had influenced his supporters to take the virus seriously, not go to super-spreader events, wear a mask . . . it’s a shocking lack of leadership.”

We emphasize 21 January 2021; the date of the mRNA sales video (Page 6 above). Well-known to Moore, at that time no reliable real-world data was available for the post-EUA COVID “vaccines.” Regardless, he spewed unfounded, completely unsubstantiated **prognostications** about those mRNA needles :

*“The risk of (mRNA) vaccine is vastly, vastly, vastly less, and ya know, people die of coronaviruses. **They’re not dying of vaccines.** Ya know, these **allergic reactions** have gotten a bit of coverage; they’re one in a hundred thousand, to one in two hundred thousand events. People that have them, **they’re equivalent to a bad reaction to a bee sting.** Well, I’ll take that chance!”*

Memo : Shown at-right is a thermograph of a 23-year-old COVID-asymptomatic soccer player. The darkening represents escalating blood-clot-like formations that commenced **immediately** after a “bee sting” ? Mrs. Jummai Nache (Subject 4) ?

INTERMISSION TWO

You have referred to the news media as “the enemy of the people.” Given the moneychanger cowardice inflicted upon Mr. Tucker Carlson (as a recent example), you are *once again* shown to be correct.

Other than The Stew Peters Show, the media **has failed miserably** to expose the vicious historical truths that led to Anthony Fauci’s “*surprise outbreak*,” and Dr. Rick Bright’s “*entity of excitement*,” **and especially Mr. Albert Bourla’s LIABILITY IMMUNITY. Relative to Subject 3**, in far too many letters I have been compelled to pose the following :

Pre-planned Underbelly of COVID-19 Criminal Enterprise is *Liability Immunity*

I have asked *many* times :

Does anyone actually believe that Mr. Albert Bourla would have sold his mRNA needles into a market wherein he and Pfizer were *not* protected by liability immunity?!

If the ongoing John Moore and Donald Trump “COVID vaccine” promotional zeal is valid, then why is the mRNA injection ***still*** protected by LIABILITY IMMUNITY?!

CONCLUSION

It is incumbent upon you to resolve the Subjects. Given current circumstances/facts there is no downside to doing so. In blunt terms, you and the nation were repeatedly deceived regarding "COVID-19."

- Subject 1 :** **Rehabilitation of the Trump Political Legacy by Full Denunciation of Subject 2**
Subject 2 : **Original Criminality of COVID-19 and its Birthright 'Operation Warp Speed'**
Subject 3 : **Your Ongoing Failure to Forthrightly Disclose to the Trusting American People the LIABILITY IMMUNITY Protections Exclusive to the (Pfizer) mRNA Needles**
Subject 4 : **Your Culpability in the Pfizer mRNA "vaccine" Injury Inflicted Upon Mrs. Jummai Nache and Her Family**

I also urge you to review material that is intimately well-known to Mr. Anthony Fauci, Mr. John Moore, Mr. Albert Bourla, and many others . . . but will NEVER be reported by the news media. The following presentation of such was made in Brussels, Belgium on 3 May 2023 by Dr. David E. Martin :

Dr. Martin concludes with three recommendations if humanity is to survive. His third, and most crucial : *Open denunciation and formal rescinding of LIABILITY IMMUNITY for Big Pharma (Subject 3).*

Regarding Subject 4, please review Attachment 2 to Enclosure 1 (also Tab 4 below); please do so in the context of my final paragraph, Page 4 above. Please contact me at any time.

Respectfully yours,

Paul V. Sheridan

Ivy League University Presidents
Ivy League University Medical College Deans
Ivy League University Law School Deans

Subject: Your Immediate and Unconditional Resignation

Reference 1: ***“Cause Unknown” : The Epidemic of Sudden Deaths in 2021 and 2022***
by Mr. Edward Dowd (former Managing Director of Blackrock Incorporated)

Reference 2: Blatant Lie Spewed by Mr. Joseph Biden Regarding “vaccine” **Liability Immunity**
at the State of the Union Address (1 March 2022)

Reference 3: Ivy League University Administrator Culpability in the Horrific Pfizer “vaccine” Injury
Inflicted Upon Mrs. Jummai Nache and Her Family

Dear Madam / Sir:

There are eight Ivy League universities: Cornell, Brown, Columbia, Dartmouth, Harvard, Penn, Princeton, and Yale. Seven contain medical colleges, and five have law schools. I am enclosing hard-copies of Reference 1 to each of the eight presidents and twelve deans. The enclosure is not embellished with the naiveté that you will actually read this book, let-alone take it to heart . . . possible, but not expected.

My purpose is to assert Reference 1 as endemic to your true resume; your most indicative “contribution” to humanity. My purpose is to assert in the public domain your legacy; an unprecedented **black mark** upon the historical record of Big Academia that cannot be white-washed, will not be forgotten, and is impossible to dismiss or deride by diversions about “conspiracy theories.”

Subject Basis: You are guilty of complicity-with and participation-in crimes of a global scale; deployed against the trusting and innocent . . . victims of the COVID-19 “vaccines.” In truth, the latter was an mRNA needle that you were fully aware is so defective that deployment could *only* occur if shielded by liability immunity. The mRNA needle was vigorously promoted by Ivy League administrators *in-particular*. “Vaccine” deaths comprise Reference 1. Its Foreword by presidential candidate Robert F. Kennedy, Jr. quotes the author; a quote that partially affirms the results of your criminality :

“From February 2021 to March 2022, millennials experienced the equivalent of a Vietnam war, with more than 60,000 excess deaths. The Vietnam war took 12 years to kill the same number of healthy young people we’ve just seen die in 12 months.”

In several COVID-19 letters I stated:

*“To have the world, they had to have the United States.
To have the United States, they had to have Cornell.”*

It is no surprise that Reference 1 begins with a quote from a world famous Cornell University astronomer. Therefore, we begin with review of ongoing COVID-19 behaviors that are representative, and were indeed anticipated from the current administrators at my alma mater.

In my first COVID-19 letter to Mr. Anthony Fauci, dated 21 July 2020 (forwarded to Ms. Martha Pollack of Cornell and Dean Augustine M.K. Choi of Weill-Cornell Medical College), I posed ten questions. Here is a screenshot of Question 1, from Page 3 :

During the US GOF moratorium, the total amount of US taxpayer funds that were deployed to the Wuhan Laboratory of Virology in China is TBD. One media report stated:

“In 2014, the NIH approved a grant to EcoHealth Alliance designated for research into ‘Understanding the Risk of Bat Coronavirus Emergence.’ The project involved collaborating with researchers at the Wuhan Institute of Virology to study coronaviruses in bats and the risk of potential transfer to humans.”

QUESTION 1

Is the essence of these media reports true; that while employed by the US taxpayer you were directly (or indirectly) connectable to the funding of research or the funding of a research facility that is connectable to the SARS-CoV-2 virus and the resulting COVID-19 pandemic?

My broad question requested a simple ‘Yes’ or ‘No’ response. I had no illusions about a truthful Fauci response. I correctly anticipated much worse from Ms. Pollack (See Pages 6-7 below). Perhaps the dean of the Cornell medical college would ask a similar question? The Cornell Law School dean? But such was not forthcoming from *any* official quarter of Cornell, or the Ivy League. Subject related questions :

Given that Fauci is a Cornell alumnus, why would administrators of our globally renowned life sciences university **not** ask Question 1, or similar? What motivated Cornell administrators to **formally avoid** such questions? And deride those that did ask? What compelled administrators of the lofty Ivy League to proceed in similar avoidance?!

Why would merely asking that question, in-particular, immediately render slander directed against the undersigned, not only by Mr. Fauci, but by several Cornell administrators? Did those slanders have merit?

Almost three years after my letter, we arrive at 8 March 2023, and the sworn testimony of former CDC Director Dr. Robert R. Redfield, before the *House Select Subcommittee on the Coronavirus Crisis*.

Some may argue that Fauci is an immunologist, not a virologist (ala Dr. Redfield), that Fauci was lacking in the latter discipline which explains his promulgations of Chinese bats that dine at Wuhan fish markets. Such diversions about Gain-of-Function (GoF) origins of SARS-CoV-2 have no play; especially given the recent testimony, acquired from astute examination by first-term Congresswoman Nicole Malliotakis (R-NY):

(Dr. Redfield) Thank you very much. I think, just to emphasize, in early to mid January (2020) I did have multiple calls with Fauci and Farrar and Tedros about how important I thought it was that science get engaged in aggressively pursuing both hypotheses. I also expressed, as a clinical virologist, that I felt it was not scientifically plausible that this virus went from a bat to humans, and became one of the most infectious viruses we have for humans. All viruses are not the same. So when you look at coronavirus, SARS and MERS for example, when they entered the human species, which they did via an intermediate, they (the viruses) never learned how to go human to human. **Even to this day, they do not know how to go human to human.** So you cannot equate Ebola with a coronavirus.

(Congresswoman Malliotakis) Given what we know now and looking at all the conversations in February of 2020, and before the release of the paper, do you think that Dr. Fauci used the paper to hide the Gain of Function research, that Gain of Function created this (COVID-19) virus?

(Dr. Redfield) I cannot talk about Fauci's motives.

(Congresswoman Malliotakis) Do you think the (February 2020) paper *does* hide the truth?

(Dr. Redfield) I think it is an inaccurate paper that basically was part of a narrative that they were creating. Remember, this (COVID-19) pandemic did not start in January at the seafood market. We now know there were infections all the way back into **September** (2019). This was a narrative that was decided, that they were going to say that this came from a wet market, and they were going to do everything they could to support it, and negate any discussion about the possibility that this came from a laboratory.

(Congresswoman Malliotakis) I have twenty seconds left ... Dr. Fauci was affirmatively told and told in an email that NIAID had a monetary relationship with the Wuhan Institute through Eco-Health Alliance; he was told this in January 27 of 2020. **Do you think that Dr. Fauci intentionally lied under oath to Senator Paul when he (Fauci) vehemently denied NIH funding of the Gain of Function research?**

(Dr. Redfield) I think there is no doubt that NIH was funding Gain of Function research.

(Congresswoman Malliotakis) Is it likely American tax dollars funded the gain of function research that created this (SARS-CoV-2) virus?

(Dr. Redfield) I think not only from NIH, but from the State Department, and from NIAID, and DoD.

Regarding long-term assessment of Fauci character, even upon the campus of Cornell, esteemed Professor of Chemistry, Dr. David B. Collum emphatically stated in a widely broadcast interview of 3 August 2021 :

“He’s a pathological liar!”

My letter of 5 October 2022 was comprised as follows (screenshot):

5 October 2022

Mr. Anthony S. Fauci Director – NIAID 5601 Fishers Lane Rockville, MD 20852 301-496-2263 / anthony.fauci@nih.gov	Ms. Martha E. ---	--	--	--

Subject : Mrs. Jummai Nache and her Family

Reference 1:	The “Fauci Effect”	Reference 2:	The Pollack Effect
Reference 3:	The Bourla Effect	Reference 4:	The Trump Vaccine

Note that its Subject is the same as instant Reference 3: Mrs. Jummai Nache and her family. The only person that responded was Pfizer CEO Mr. Albert Bourla. A link to my video presentation of the Bourla response is offered below:

<https://rumble.com/v247vpk-the-bourla-response.html>

Although it stood on existing merits, my 5 October 2022 letter must now be *re-reviewed* in the context of **the testimony of Dr. Redfield** (pages 3-4 above). On page 6, I had asserted to Mr. Fauci (screenshot) :

Summary: Whether at the *onset* (creation of SARS-CoV-2 as an “entity of excitement”) or at the *finale* (deployment of the mRNA needles), the Fauci Effect and its connectability to the Subject *has zero wiggle room.* *

Again, the Subject of my 5 October 2022 letter was Mrs. Jummai Nache and her family. My assertion of ‘*zero wiggle room*’ (regarding that Subject) applies with equal stridence to the Ivy League administrators. **As an exemplar, Ms. Martha Pollack of Cornell, we review her opening COVID-19 salvo from 2020.**

Despite her receipt of my 21 July 2020 letter to Fauci (Page 2 above), the Pollack “response” did not embrace its manifold portent, or the concerns of a respected and deeply loyal member of the Cornell Family; not even close. Instead, and characteristically, **she inflicted upon the campus the most grotesque and the most abusive agenda-driven event in Cornell University history.**

On 6 October 2020 Pollack welcomed, with unbridled gala, *thee* juvenile of the (post Event 201) COVID-19 crime syndicate . . . Anthony ‘Mr. Science’ Fauci:

We again emphasize the testimony of former CDC Director Dr. Redfield of 8 March 2023. In the fifteen-plus letters that I forwarded to Pollack, overwhelming evidence was provided on the criminal status of Mr. Fauci. But **after** the Congressional testimony of Dr. Redfield, and **after** publication of Reference 1; has anything been revised? **If nothing, then what actions exemplify ongoing Cornell administration response-to and participations-in the global COVID-19 crime syndicate? A recent sample on overleaf :**

The felon is still welcomed with open arms . . . and with open University Development fund-raising hands:

These Ivy League COVID-19 related behaviors have no connection to health. This is demonstrably true in view of your endorsement of *thee* underbelly of the COVID-19 crime syndicate : **LIABILITY IMMUNITY**.

Many of the crimes committed by Ivy League administrators are esoteric. Our Law School deans could explain to lay people the simple criminality of the PREP Act provision called: **LIABILITY IMMUNITY**. The complicity and avoidance of Ivy League administrators on this topic alone entangles their once-hallowed institutions with subterfuge at-best; outright criminality in-truth.

The Emergency Use Authorization (EUA), issued by the FDA on 11 December 2020, is key to the legalistic fraud that shields mRNA technology in-particular ! That scenario was sought long before Event 201. But by-definition, an EUA does **not** allow claims of safety and efficacy, let-alone effectiveness; especially for the never-before-used mRNA needle. An EUA **implicitly** declares that such claims are unsubstantiated; and therefore illegal:

Mr. Fauci, Ms. Pollack, Mr. Bourla, and Mr. Trump cannot have it both ways. When deployed under, and still shielded by an EUA, the phrase “*safe and effective*” is not merely a misnomer . . . **spewing that phrase under an EUA is a crime**.

I have asserted these points many times in my letters to Fauci, Bourla, Pollack, Trump, et al. If the mRNA needles were as claimed, then release would not cover behind an EUA, but instead would have been authorized under a full FDA approval. If the mRNA needles were what Ivy League administrators forcibly claimed to students, staff and faculty; then the provision of LIABILITY IMMUNITY would not be necessary.

We now move to **Reference 2 (Attachment 1)** . . . which focused on the March 2022 State of the Union address, and the **blatant lie** spewed by “President Joseph Biden.”

“ Repeal the liability shield that makes gun manufacturers the only industry in America that can’t be sued. The only one! ”

Not one Ivy League Law School dean challenged this bold-face lie; not one! And no correction came from Pfizer CEO Mr. Albert Bourla. And certainly there was no response from Fauci . . .

All of you are aware of LIABILITY IMMUNITY. The so-called COVID-19 pandemic was the first time in American history that LIABILITY IMMUNITY was foisted upon an innocent and trusting public. Indeed, you wallow in its financial implications for University Development prospecting.

On the basis, among others, that the US Treasury would, in-essence, be an inexhaustible funding source, you gleefully swarmed at that trough; **mandating** that students, staff and faculty be injected with LIABILITY IMMUNITY protected mRNA needles . . . consciously “contributing” to the billions in-profit for Big Pharma.

You had complete foreknowledge that your Big Pharma fund-raising prospects would not be encumbered with the established development protocols and customary proofs that lead to a truly competent product; unassailable technically, legally and medically. Despite being aware that such decency had not occurred, that only an EUA was in-place, you regurgitated *ad nauseam* **“safe & effective!”** **Cornell administrators spewed that fictitious rant in November 2020 . . . prior to the EUA approval meeting !!** And the rest of you continuously spewed that lie prior to unbiased real world data (such as, but not limited to Reference 1).

You continue to be fully aware that the mRNA needles are **not** safe, and **not** effective, by any truthful measure. If they were **“safe & effective,”** there would be no need for LIABILITY IMMUNITY *per se*, let-alone remain the focus of never-ending PHE extensions and expansions; as HHS Secretary Xavier Becerra has done, **once again**; recently pushing expiration to 11 May 2023.

Over a year ago I was interviewed by The Stew Peters Network regarding LIABILITY IMMUNITY. Cornell and Fauci are mentioned many times. I stated (excerpted) :

(Sheridan) I have interviewed no less than sixty Cornell students who were mandated to take the ‘vaccination’ from either Pfizer or Moderna. None of them knew, and none of them were notified, prior to the needle, that they had no wherewithal, legal wherewithal, with respect to Pfizer or Moderna prior to accepting the jab. This is ‘willful misconduct’ in the area we call ‘duty to warn.’

Let me go here . . . As an automotive executive, one of my most important jobs was safety. Can you imagine if I went into my boss’s and said, *‘Heh, ya know, we don’t need those seat belts, and those air bags, and this crashworthiness . . .’*

(Stew Peters interjecting) **“ You’d be laughed out of there!! ”**

(Sheridan continues) . . . we’ll just do LIABILITY IMMUNITY boss! Okay? We can get rid of all our defense lawyers, we can get rid of all the plaintiffs. And when a mother and their child gets hurt in our vehicle, we just say, *‘Heh, we got LIABILITY IMMUNITY!’*

And oh by the way, we’re mandating that you buy it (the vehicle) again, and put your children in it again. We’re going to do with automotive safety what the pharmaceutical industry and what Congress has done with so-called vaccines. Can you imagine how quickly I’d be fired for proposing such nonsense!

(Stew Peters) **“Yeah, the notion would be absolutely ridiculous that anybody would accept that on its face! ”**

Several Cornell students that I had interviewed, all of whom were injected by coercion, watched the following, and thereafter shared their ire and directed its verbiage at the Cornell administrators.

I have received emails from other viewers which stated that, were it not for my interview, they would have unknowingly submitted to their employer mandates. The LIABILITY IMMUNITY issue alone was persuasive in their rejection of the mRNA needle. Note: These results occurred **prior** to publication of Reference 1.

But my interview regarding the criminality of coerced mRNA injections and the associated scheme of LIABILITY IMMUNITY came too late to prevent Reference 3:

Ivy League University Administrator Culpability in the Horrific Pfizer “vaccine” Injury Inflicted Upon Mrs. Jummai Nache and Her Family

We conclude with Reference 3: Mrs. Jummai Nache and her family. Accurate perspective partially involves the following torrid fact regarding the twenty Ivy League administrators; recipients of this letter: **None of you, to this day, can declare with absolute certainty the precise contents of the mRNA needle(s) that you coerced into the veins and arteries of your students, staff and faculty:**

If there is a single piece-of-evidence that provides a 'preponderance of truth,' which further confirms your criminal status, it is *that* ongoing putrid reality.

Mrs. Jummai Nache was injected under threats to employment as a Medical Assistant; coerced by *her* Big Academia employer, the University of Minnesota. Other than two mRNA needles from Pfizer-BioNTech (Lot EK9231 and Lot EL9262), the UMinn criminals are *also* incapable of declaring the precise contents of the needles that ended Jummai's life, as she and her family had previously known it:

I now direct you to Attachment 2. A photo progression record . . . a record that all of you contributed to. Take a look . . . **take a good loooooooooong look.**

CONCLUSION

Of the many institutions embedded in the global COVID-19 crime syndicate, none are more insidious than Big Academia. **Of the latter, none are more grotesque, and DIRECTLY culpable, than the Ivy League especially the current administrators of Cornell University:**

If just one Ivy League University had unmasked the criminal character, purpose, and culprits of the so-called COVID-19 pandemic, that entire scheme would have collapsed; and millions of lives and livelihoods would have been spared . . . **This is especially true if it had been my alma mater, Cornell University.**

On Page 2 above, I reviewed questions that I posed back in 2020 to Cornell alumnus Mr. Anthony Fauci, such as the GoF funding question. I also discussed Nuremburg-*esque* levels of Ivy League avoidance of **basic** COVID-19 issues; issues that, by virtue of alleged and highly promoted expertise and authority, the Ivy League has historically made claim to. What explains your behavior? My (personal) contextual response involves your **betrayal of the public trust**. The Addendum is offered as context (overleaf).

All twenty of you can easily be connected to the origins and portent of Reference 1: "*Cause Unknown*" : *The Epidemic of Sudden Deaths in 2021 and 2022*. According to its author, the enclosure undercounts the horrific blight of the COVID-19 "vaccine" deaths. On the basis of your connectability to those deaths:

I hereby formally demand that all of you resign, effective immediately.

Cordially,

Paul V. Sheridan
Cornell MBA : Class of 1980

DEMANDS: Your Public Correction and Apology as ‘Chief Medical Advisor to the President’ Addressing the Blatant Lie Proclaimed by President Biden Regarding “vaccine” Liability Immunity

Reference 1: State of the Union Address – 1 March 2022
Reference 2: My Letter to Fauci, Pollack, et al., of 19 January 2022

Dear Mr. Fauci:

You were present for Reference 1, and you are in-receipt of my many COVID letters including Reference 2.

During the State of the Union address of Tuesday, you personally observed the following **bold-faced and purposeful lie** proclaimed by your boss President Joe Biden:

“Repeal the liability shield that makes gun manufacturers the only industry in America that can’t be sued. The only one!”

Let us be clear, that outburst from the person many refer to as “*America’s first mail order president*,” was not a misstatement or a mistake. You, of all people, are aware of that inveracity; that it was a bold-faced lie:

“Repeal the liability shield that makes gun manufacturers the only industry in America that can’t be sued. The only one!”

This Administration lie was not accidentally spewed into a “hot mic.” This lie was openly declared during the State of the Union! **A lie so outrageous, that even Tucker Carlson remains in a state of shock:**

To put this Administration lie in perspective, I am once-again attaching the 'Mrs. Jummai Nache Photograph Progression' file. **As you are fully aware**, but ignore, the horror that befell the Christian family from Nigeria is not isolated. The adverse events data (being forcibly revealed by legal actions, overcoming the inveracity of your Big Pharma suitors) continues to confirm the "willful misconduct" that was central to your so-called 'Emergency Use Authorization' of 11 December 2020 (Attachment).

Before I assert and specify the instant DEMANDS, we review your highly motivated and self-absorbed quote to the Financial Times of London on 10 July 2020:

“ I have a reputation, as you probably have figured out, of speaking the truth at all times and not sugar-coating things. And that may be one of the reasons why I haven’t been on television very much lately.”

This quote came shortly after your bold-faced lies about hydroxychloroquine, and the “research” conducted by your suitors at Surgisphere, during your May 27, 2020 interview with the political dweebs at *Politico*.

Your big money quote came shortly before your “vaccine” promotional stunt at the Cornell University *StayHomecoming 2020* event, orchestrated by Ms. Martha Pollack, et al. This is relevant since at no time during that stunt, or thereafter, did you or Pollack declare that liability immunity existed for Big Pharma and their needles; needles that you were going to mandate against the Cornell students and staff, and the entire nation. That is, both of you are guilty of lying by omission; failing in your ‘duty to warn’ in the context of informed consent, and in the context of other legal and moral basics.

FORMAL DEMANDS

1. You are to assert in the Public Domain that you are the person that is, in the largest part, responsible for the 'liability immunity' that existed/was-enacted in behalf of Big Pharma and their "vaccines," and that such was pre-emptive/central to the so-called "COVID-19 pandemic."
2. You are to assert in the Public Domain that you were present at the 1 March 2022 State of the Union address, hearing first-hand the following statement by your boss, President Joe Biden:

“Repeal the liability shield that makes gun manufacturers the only industry in America that can’t be sued. The only one! ”

3. You are to assert in the Public Domain that the above declaration by the president of the United States is not merely a misstatement, **but a two-part bold-faced lie.**
4. You are to assert in the Public Domain your personal apology, for your intimate connections to Demand Item 1 above; an apology **directed to Mrs. Jummai Nache and her family.**
5. You are to assert in the Public Domain your personal apology, for your intimate connections to Demand Item 1 above; an apology directed to the Cornell University family.
6. You are to assert in the Public Domain your personal apology for your intimate connections to Demand Item 1 above; an apology directed to citizens and taxpayers of the United States.
7. You are to assert in the Public Domain your personal apology for not addressing openly and honestly, the existence of 'liability immunity' which resides with and was orchestrated solely for your Big Pharma comrades, **regarding the issue of informed consent.**
8. You are to assert in the Public Domain the following legal fact : As more truth is revealed regarding (a) the manner in which SARS-CoV-2 and its variants came into existence, (b) the decades-old history of how "COVID-19 vaccines" were developed, (c) how the "COVID-19 vaccines" were deployed under the Emergency Use Authorization, and (d) the concealment of ongoing adverse events data (worldwide); that as these revelations confirm **the long-standing and ongoing existence of "willful misconduct,"** that such revelations vacate the protections/provisions of your liability immunity; that the latter is no longer legally valid, and that civil liability lawsuits are justified and viable.

Please do not hesitate to contact me at any time.

Cordially,

Paul V. Sheridan

Reference 1 : Secret Meeting of 9 February 2023 Between **Pfizer CEO Mr. Albert Bourla** and Governor Kim Reynolds, Chairwoman of the Republican Governors Association

Dear Mr. Paxton:

Thank you so much for your efforts, and that of your staff, in regard to the Subject. To put those efforts in-perspective, proceed to Tab 1 of Enclosure 1; **please brace yourself**. I also offered that photographic historical rendering as Attachment 2 to Enclosure 2. **Question: Willful misconduct?!**

One purpose of this communication is a request: Please include in the Subject the issue of willful misconduct. Specifically, please ensure that your TDTPA related efforts obviate any further enshrinement of LIABILITY IMMUNITY. In *many* prior letters, including those sent to Mr. Donald Trump and Governor Ron DeSantis, I have posed the following (screenshot) :

Pre-planned Underbelly of COVID-19 Criminal Enterprise is *Liability Immunity*

I have asked *many* times :

Does anyone actually believe that Mr. Albert Bourla would have sold his mRNA needles into a market wherein he and Pfizer were *not* protected by liability immunity?!

My position on the criminality of LIABILITY IMMUNITY is a matter of long-standing public record:

Secret Meeting of 9 February 2023 Between Pfizer CEO Mr. Albert Bourla and Governor Kim Reynolds, Chairwoman of the Republican Governors Association

That Governor Reynolds was not physically present at this meeting (in Washington DC) is not germane. What is relevant is that she is the Chairwoman of the Republican Governors Association (RGA), and her endorsement / oversight is implied. I have written to her twice. I have left two voicemails on her line (515-281-5211), and three on the line of Iowa Attorney General Brenna Bird (515-281-5164). I have spoken *directly* to a "Michael" at the RGA four times . . . zero response. **On overleaf you will find a screenshot of my letter to Florida Attorney General Ashley Moody which describes the above:**

24 February 2023

Ms. Ashley Moody, Attorney General / Mr. Ryan D. Newman, General Counsel
Page 3 of 9Background Discussion *continued*

As of this letter I have had **FOUR** person-to-person telephone calls into the following contact:

Republican Governors Association
1747 Pennsylvania Avenue NW
Suite 250
Washington, DC 20006
202-662-4140

On all calls I have politely requested the following **basic** information:

1. Who called the "private event" meeting of 9 February 2023; was it at the request of Pfizer? The Republican Governors Association (RGA), or both? *
2. What was the invitation mechanism? Email? Telephone? Other written invitations?
3. What was the original agenda, and/or were additional items discussed as the meeting proceeded?
4. Who from Pfizer, in addition to those depicted on Page 2 above were in-attendance? Who in representation of the RGA were in-attendance, and which if-any Republican governors were also in-attendance?
5. Were meeting minutes produced that documented the above? If yes, why has such not been shared with the taxpayer? The public at-large?
6. What documents were shared between Pfizer and the RGA?
7. Are there any follow-up Pfizer/RGA meetings scheduled? If yes, when and where; and in what format? In person, by teleconference?

As of this letter **the RGA refuses to answer** any of these questions; all likely germane to the instant Subject.

CONCLUSION

Once again, thank you for the Subject. However, as you may have gleaned, the COVID-19 criminal syndicate is non-partisan. In these regards, I relay the following **with permission**: Mrs. Jummai Nache is willing and available to testify *in-person* if the Subject would benefit from such.

Please feel free to contact me at any time.

Respectfully yours,

Paul V. Sheridan

Mr. Moore:

First, as already stated, I will be calling you early this week.

Second, **you did not answer any of my three simple questions; questions that are evoked by the article that you and Mr. Wittaker are quoted in.** None of the articles you attached are relevant/responsive. In fact, none are even timed to the article in question (i.e. the contemporaneous issues of 2020).

Third, please forward to me immediately, all links to websites that you claim to have reviewed, that suggest in the slightest that I am, using your email words, *"a member of the ultra-right, anti-vaccine, "stop the steal" (sic) movement."*

I have done searches on my name in several search engines, and in several name formats, and can find no such suggestion or direct accusation of the sort you, as a first, have alleged. I am not a member of ANY political group, I am not "anti-vaccine." And I am certainly not part or privy to anything associated with a "stop the steal movement." We will discuss that part of your email very soon.

Again, I will be calling you early this week.

Mr. Sheridan,

A quick Google search shows you to be a member of the ultra-right, anti-vaccine, "stop the steal" (sic) movement that has caused so much damage to our nation during the pandemic, not least by causing so many unnecessary COVID-19 deaths via the spread of lethal disinformation. I have attached three articles that you should read as you clearly need exposure to fact-based information. But as I have no interest in a discussion with someone who is so entrenched in dangerously anti-social activities I have blocked your email address - so there is no point to your replying to my email.

Mr. Moore:

In the subject article you are quoted as follows, emphasis on three samples, and three questions (Q 1, 2 &3) :

(1) "With that in mind, what the vaccine designers do is present a protein to the immune system in a way that does not cause virus infection. The vaccines are harmless from that perspective. But the [spike] protein is presented to the immune system in a way that the immune system raises antibodies against it."

(Q-1) In the context of the the Pfizer version, are you saying that the inoculation involves injection of spike protein into the bloodstream?

(2) "While some basic experiments were being done in animals, the best estimate of the optimal design was being produced under these large scale, ultra high quality conditions. So then, you get into a position where you're able to do a phase one clinical trial."

(Q-2) In the context of COVID-19 what precisely were the "basic experiments ... being done in animals"? What animals were used, and when/where were these experiments conducted?

Article lead-in: Moore explained that current vaccine candidates have had promising results from Phase 3 clinical trials — especially in preventing severe disease and death.

(3) “These severe disease cases have almost all been in the placebo group, including at least one death in the placebo group. There’s fewer numbers here, but the data is suggesting that the vaccines are also protecting against severe disease and death, which would obviously be a good thing.”

You will note that the linked/subject article was published six days *after* the FDA/CDC granted their Emergency Use Authorization (EUA) of 11 December 2020 for Pfizer.

(Q-3) As you are fully aware, at the time of your quote #3, the Pfizer Phase 3 trials were no longer blind. At the time of the EUA, for how long *prior* were the Phase 3 trials no longer blind; at what point/date did Pfizer *un-blind* Phase 3? Are your allusions to "95% efficacy" based on the Phase 3 trial data supplied by Pfizer?

Thank you for your time, I will telephone you early next week.

The COVID-19 Vaccine, Explained by Cornell Virologists

By Srishti Tyagi

(https://cornellsun.com/wp-admin/edit.php?post_type=post)

As COVID-19 cases continue to spike (<https://cornellsun.com/2020/12/08/tompkins-county-reports-61-new-positive-covid-19-cases-fifth-death/>) across the United States (<https://www.nytimes.com/interactive/2020/us/coronavirus-us-cases.html>) and the rest of the world (<https://www.nytimes.com/interactive/2020/world/coronavirus-maps.html>), several pharmaceutical companies have reached their final lap (<https://www.nytimes.com/interactive/2020/science/coronavirus-vaccine-tracker.html>) in the race to approve and distribute a COVID-19 vaccine — a vaccine from Pfizer and BioNTech received (<https://www.nytimes.com/2020/12/11/health/pfizer-vaccine-authorized.html?action=click&module=Top%20Stories&pgtype=Homepage>) emergency authorization from the Food and Drug Administration on Dec. 11, and the FDA is expected to authorize Moderna’s vaccine by the end of the month. (<https://www.cnn.com/2020/12/16/health/moderna-covid-19-vaccine-fda-vrbpac-meeting/index.html>)

However, amid rampant misinformation, politicization (<https://cornellsun.com/2020/11/02/concerns-over-safety-challenge-presidential-candidates-vaccine-plans/>) and general distrust of the vaccine development process, many Americans have expressed hesitancy (<https://www.statnews.com/2020/11/08/national-covid-19-vaccine-confidence-project-top-job-president-elect-biden/>) over whether a COVID-19 vaccine would be safe and effective for widespread use.

To investigate these concerns, The Sun spoke with Cornell virologist Prof. Gary Whittaker and Prof. John Moore, microbiology and immunology at Weill Cornell, who explained the inner workings of COVID-19 vaccine mechanisms and their development.

How vaccines protect the body against COVID-19

According to Moore, vaccines are all designed to fulfill the same purpose of triggering the body's immune system to produce antibodies against a specific target.

A critical component of immune defense, antibodies (<https://cornellsun.com/2020/09/21/a-look-into-the-immune-system-cornell-experts-explain-how-our-bodies-fight-disease/>) are proteins that recognize and neutralize foreign substances like bacteria and viruses.

"The antibodies that are raised recognize the virus and prevent it [from] infecting cells in the human body, therefore rendering the virus essentially harmless," Moore said.

Moore explained that although current major candidates for the coronavirus vaccine have been designed in various ways, all of them have targeted a specific part of the virus — the spike protein.

This protein, a component of the outer surface of the virus membrane, enables the virus to latch onto target human cells expressing a specific receptor protein called ACE2 (<https://www.nature.com/articles/s41467-020-18319-6>). The coronavirus can bind to these receptors, providing an access point to penetrate human cells and replicate, resulting in infection, Moore said.

According to Moore, antibodies against the coronavirus can prevent infection by binding to the virus spike protein, which can interfere with the process of attaching onto the ACE2 receptor and halt viral entry into the cell.

"With that in mind, what the vaccine designers do is present a protein to the immune system in a way that does not cause virus infection," Moore said. "The vaccines are harmless from that perspective. But the [spike] protein is presented to the immune system in a way that the immune system raises antibodies against it."

Antibodies produced from vaccination can then remain in the body for extended periods of time, providing long-term (<https://uahs.arizona.edu/tomorrow/antibodies-shown-provide-long-term-immunity-against-covid-19>) protection from infection.

Vaccines essentially work like fire drills that can prepare the body in the event of a real "fire," which would be the presence of the coronavirus inside the body, according to Whittaker.

“[We] train the body to get ready to fight off this disease ... but it’s not actually the disease, it’s the safe version. So we get the response without the disease,” Whittaker said. “And so the immune system is trained and triggered. When the virus does come, there’s the immediate response.”

The vaccine development process, from start to finish

Although initially much was unknown (<https://cornellsun.com/2020/04/09/covid-19-fact-vs-fiction-busting-common-coronavirus-myths/>), about SARS-CoV-2, Moore said there was substantial pre-existing research on vaccine design, coronavirus biology and spike protein properties that could be quickly repurposed to develop a COVID-19 vaccine.

“The research community did not start from scratch,” Moore said. “It had blueprints that could be exploited and those blueprints were put in place by decades of research on immunology, protein production, vaccine design and development in general.”

After extensive research and design, vaccine developers have to make it through multiple, rigorous stages of testing and clinical trials (<https://cornellsun.com/2020/03/31/the-anatomy-of-the-clinical-trials-how-researchers-are-testing-covid-19-treatments/>) before potential vaccines can be distributed to the population.

Preclinical testing

The first step, Moore said, is preclinical testing. This process can involve DNA sequencing and analysis based on basic laboratory techniques, as well as testing the vaccine against specific conditions set up in the lab.

Upon promising results from preclinical experiments, vaccine candidates can graduate to animal experiments, according to Moore. These experiments typically involve vaccinating small mammals, such as mice, rabbits, and guinea pigs — or if available, macaque monkeys — to model how humans might respond to the same vaccination.

“The goal in those initial studies was to assess whether they induce the right antibody responses, and whether there [were] immediately obvious safety considerations. That would be a major red flag,” Moore said.

Animal experiments can also be used to test different vaccine doses, as well as the spacing between doses to determine what could be the safest and most effective protocol for vaccination in humans.

The FDA must then approve the final vaccine product, and production will move out of the lab and into the hands of industry partners that have the capability to manufacture vaccines under conditions of very high quality and safety, Moore said.

To accelerate the typically years-long vaccine development process, Moore said vaccine manufacturers began large-scale production in tandem with the testing process.

“While some basic experiments were being done in animals, the best estimate of the optimal design was being produced under these large scale, ultra high quality conditions,” Moore said. “So then, you get into a position where you’re able to do a phase one clinical trial.”

Clinical trials and FDA approval

Phase 1 clinical trials are designed to test for the safety of the vaccine in humans, according to Moore. Approximately 50 people might be immunized during this stage, when researchers closely observe participants for any serious adverse reactions to the vaccine.

Researchers also test patients' immune response by measuring the antibodies and immune cells that would have been triggered by the vaccine to gauge the vaccine's initial performance, Moore said.

The FDA can then determine whether the study can move to Phase 2, which involves hundreds of patient volunteers, Moore said. This phase explores dosage regimens and timing, and further examines safety and the magnitude of patients' antibody responses.

If Phase 2 is successful, Moore said the study can receive approval to start Phase 3, during which tens of thousands of patients are immunized and a control group receives a placebo, and the rate of infection is compared between the two groups. This larger scale experiment can test the vaccine for efficacy.

According to Moore, the efficacy of a vaccine is determined by how many of the infected patients received the placebo compared to those who received the vaccine. For example, if a Phase 3 study resulted in 100 infections, 95 percent efficacy would mean that 95 of those infections were participants in the placebo group, while the remaining 5 had received a vaccine.

Moore explained that current vaccine candidates have had promising results from Phase 3 clinical trials — especially in preventing severe disease and death.

“These severe disease cases have almost all been in the placebo group, including at least one death in the placebo group,” Moore said. “There’s fewer numbers here, but the data is suggesting that the vaccines are also protecting against severe disease and death, which would obviously be a good thing.”

Promising results from Phase 3 trials can allow vaccine manufacturers to apply for FDA approval, the current stage of several vaccine candidates.

In evaluating vaccine candidates for approval, Moore emphasized that the FDA will maintain high standards of integrity, despite the pressures the pandemic and political figures have placed on the process.

“These are leading scientists that are well respected in the field that people have experience and integrity. They will do a thorough evaluation procedure on the information that they’ve been given,” Moore said. “And they’ll make a recommendation to the FDA which could be rejected or it could be approved. And the likelihood is, that they’ll get approved.”

How the pandemic has accelerated vaccine development

In order to control the pandemic and return people's lives back to normal as quickly as possible, Moore said that COVID-19 vaccine development has been greatly accelerated for a process that usually takes years, or even decades.

“It’s important to move as quickly as possible. But you also can’t compromise safety,” Moore said. “Because firstly, the public has to be confident that the vaccine has been approved through an appropriate process. And it needs to be transparent. And it needs to be free of political interference, which has been an issue all year.”

Whittaker agreed with Moore, noting that releasing a vaccine too soon could worsen issues of vaccine hesitancy and denial for an already skeptical population.

“We’ve got to be clear, we can’t be fast tracking too much and not being transparent and not doing the correct documentation,” Whittaker said. “Because we don’t want to release either a poor vaccine or worse, a bad vaccine....that will be very detrimental.”

However, Moore is confident that despite the acceleration of the vaccine

development process, no corners have been cut when testing for safety or efficacy.

The major change that sped up COVID-19 vaccine development was the manufacturing of vaccines even prior to final approval of a candidate, according to Moore. This meant that federal governments in many countries pre-funded vaccine production, putting hundreds of millions – even billions – of dollars on the line on the off chance that a specific candidate is approved for safety and efficacy later on.

Normally, no pharmaceutical company would ever take such an enormous financial risk.

“Well, the government ... took the financial responsibility off the companies and said, ‘Look, we’ll pay for this to be made, we’ll keep our fingers crossed, we’ll hope everything goes okay in the evaluation process. And if it does, we can roll the vaccines out now, instead of waiting six months to make them,’” Moore said. “So that’s a legitimate way to save a substantial period of time.”

An overview of current vaccine candidates, and how they work

There are currently three main subcategories of vaccines among leading vaccine manufacturers

The first and most prominent type of COVID-19 vaccine is the mRNA vaccine, which is utilized by pharmaceutical frontrunners Moderna and the Pfizer-BioNTech partnership.

Moore explained that mRNA is a set of instructions that the body can read to produce proteins. If a vaccine includes such instructions on how to make antibodies against the coronavirus, this can transform human cells into factories for making these antibodies, resulting in immunity against COVID-19 infection.

“mRNA vaccines are brand new. They’ve never been used before, but they’re seemingly very powerful and very, very efficient,” Whittaker said. “In a way, it’s really revolutionized vaccine technology in the process of dealing with the emergency of the pandemic.”

However, one major limitation of mRNA vaccines is their instability. Moore said that since mRNA is so fragile, it must be kept at extremely low temperatures and would require ultracold freezers (<https://www.sciencemag.org/news/2020/11/temperature-concerns-could-slow-rollout-new-coronavirus-vaccines>), creating concerns over how vaccines can be distributed.

Moore said that although this creates a “logistical headache,” the problem is “not one that isn’t solvable.”

Britain recently approved (<https://www.nytimes.com/2020/12/08/world/europe/uk-vaccination-covid-virus.html>) the Pfizer-BioNTech mRNA vaccine for emergency use, and began vaccinating small numbers of healthcare workers and people over 80.

The FDA followed suit, granting emergency authorization (<https://www.nytimes.com/2020/12/11/health/pfizer-vaccine-authorized.html?action=click&module=Top%20Stories&pgtype=Homepage>) to the Pfizer-BioNTech mRNA vaccine on Dec. 11. The first shots of the COVID-19 vaccine were administered on Monday (<https://www.nytimes.com/live/2020/12/14/world/covid-19-coronavirus>) to New York healthcare workers, kicking off a massive vaccine rollout campaign against a pandemic that has claimed over 300,000 lives in the United States.

On Dec. 9, Canada approved (<https://www.nytimes.com/2020/12/09/world/americas/canada-vaccine-approve.html>) the Pfizer-BioNTech vaccine for emergency use as well, starting its own inoculation program on Monday, with initial doses (<https://www.nytimes.com>

[/live/2020/12/14/world/covid-19-coronavirus](#)) going to nursing home residents and health care workers.

A second type of vaccine is viral vector vaccines, in which viruses that cause the common cold — adenoviruses — are weakened to prevent infection, according to Whittaker. Genes encoding the coronavirus spike protein are then stitched into the genome of the adenovirus, Moore said.

Therefore, when the weakened adenovirus from the viral vector vaccine infects human cells, these cells begin to produce the coronavirus spike protein — which is recognized by the human immune system and triggers antibody production, Moore explained.

Viral vector vaccines have been **approved** (<https://www.nytimes.com/interactive/2020/science/coronavirus-vaccine-tracker.html>) for use in China and Russia, and another is currently in a Phase 3 clinical trial for the British-Swedish company AstraZeneca.

A third type of vaccine is the protein-based vaccine, in which the coronavirus spike protein is produced on a large scale, purified and injected directly into patients, Moore said. Novavax is the leading protein-based vaccine candidate in the U.S. and is currently in a Phase 3 clinical trial.

Although all three types of vaccines, among other types, accomplish the same task in different ways, scientists must wait for the results of Phase 3 trials for viral vector and protein-based vaccines before deciding whether one type is more effective than another, Moore noted.

Should people take the vaccine?

As vaccine distribution ramps up across the United States, the question remains: Should Americans be willing to take it? For Moore, the answer is a resounding “yes.”

“It’s important that these vaccines be used. And it’s important that the public trust them,” Moore said. “For the public to trust them, it’s important that the approval process must be seen to be both rigorous and transparent.”

Both Moore and Whittaker agreed that the public must have trust in science and public health officials, which will allow the vaccine to successfully protect people from COVID-19.

“If the FDA does its usual thorough job, then people need to get behind these vaccines and actually use them,” Moore said. “Because a vaccine that isn’t trusted is a vaccine that isn’t used, and a vaccine that isn’t used ... is useless.”

Moore further implored people to have confidence in the FDA and tune out misinformation that has created distrust in the vaccine development process.

“The stuff on the internet that you can find in a quick Google search — most of it is rubbish,” Moore said. “So we have to rely on science, rely on media, or information sources that are reliable, and make appropriate judgments and not believe all of the junk that goes around.”

Dear Mr. Fauci:

To the best of my extensive knowledge of Cornell University, **no member of the Cornell family has ever had a headline that even remotely duplicates the following.** ¹

by Justus R. Hope, MD

¹ There is one other person that will be receiving a similar 'Letter of Demand.'

Context of Forfeiture Demand

The context of this forfeiture demand is made broad-based by you. The true timeframe is several decades, not merely the timespan connected to the so-called “COVID-19 pandemic.”

Whether examining (1) facts connected to the multi-facility Gain-of-Function research that led to the “SARS-CoV-2 virus,” or (2) what you and your associates in the pharmaceutical industry call a “vaccine,” or (3) what your comrades in government call “Operation Warp Speed,” or (4) what sycophants in academia call their “New Normal,” or (5) what you and your media/Big Tech co-conspirators call “disinformation” . . . no matter where the examination leads, **there is always found a commonality: The footprints and fingerprints of “America’s Doctor.”**

The most offensive aspect of the context, that completely justifies my demand that you forfeit all degrees and affiliations with Cornell University, is **the repeatedly demonstrated fact that you, Mr. Fauci, are deemed not trustworthy.** Implicitly, a liar has zero standing with the esteemed Cornell family, and your excommunication is more than justified on this perception alone.²

² Not alone in his assessment, in a widely disseminated interview of 7 August 2021, Cornell Professor of Chemistry and Chemical Biology, Dr. David B. Collum described your condition as **“pathological liar.”** (I reviewed this quote in my recent letter to Donald Trump impeachment attorney, Mr. Michael van der Veen; Attachment 1.)

The truth is Dr. Fauci . . . a person with your academic and professional credentials, a person in your position, a person with your responsibility . . . your opinions and actions should be, historically and currently, impeccable, unassailable, and unimpeachable.

But in the opinion of some, that is not the case. Interviews of the type orchestrated by politically vested-interests such as Wolf Blitzer and CNN should not be occurring.

As early as July 2020 . . . **a few short months after long-planned deeds contributed to the infection of billions of human beings, with you a key suspect** . . . the corrupt legacy news media was compelled to 'provide cover' for America's Doctor.³

Long before it became trendy among senators and congress, and unknown to you, I had shared with President Trump my concerns regarding your incompetence, your unpatriotic motivations, your self-absorbed *modus operandi*, **and most importantly your lack of integrity**. These arguments are persuasive to the extent that an antigenic peptide stimulates an immune response that may produce antibodies that bind to a specific peptide or protein but is not persuasive in regards to a vaccine. The immune response produced by a vaccine must be more than merely some immune response but must be protective. As noted in the previous Office Action, the art recognizes the term “vaccine” to be a compound which prevents infection. Applicant has not demonstrated that the instantly claimed vaccine meets even the lower standard set forth in the specification, let alone the standard art definition, for being operative in this regards. Therefore, claims 5, 7, and 9 are not operative as an anti-HIV-1 vaccine and therefore lack patentable utility.

I had admonished you and Trump about Operation Warp Speed on page 32 in my letter of July 21, 2020.

I again chided Trump (and VP Michael Pence) in my letter of August 13, 2020.

But the obsessing Trump did not graduate from Cornell University . . .

You did attend Cornell Mr. Fauci, and your participations in Operation Warp Speed are criminal, and are *directly* connectable to horrible injury and death on a global scale.

Keys to Genocide: Fauci Inspired Crime – *Liability Immunity*

Consistent in purpose, consistent with your promotions of Operation Warp Speed, the charge of genocide is evidentiary; the latter includes your history of crimes against humanity, typified by your secret decades-old orchestration of *liability immunity*, which especially benefits (in billions-of-dollars in profits) the “COVID-19 Vaccinators.”

Keys to Genocide: Fauci Inspired Crime – Liability Immunity - Conclusion

I was featured in a recent Stew Peters TV interview regarding your history, specifically regarding the global human consequences of the criminal conspiracy which *led to* liability immunity:

The interview focused on the vast evidence that confirms **willful misconduct, and how that evidence constitutes a voiding of liability immunity**. My interview was prompted in-part by my letter to Trump impeachment attorney, Mr. Michael van der Veen; an excerpt from Page 1:

Civil Liability Case Definition

The webpage of the US Department of Health and Human Services, covering the Public Readiness and Emergency Preparedness Act (PREP) states:

Liability Immunity and Compensation

In general, the liability immunity applies to entities and individuals involved in the development, manufacture, testing, distribution, administration, and use of medical countermeasures described in a Declaration. The only statutory exception to this immunity is for actions or failures to act that constitute willful misconduct.

Relative to COVID-19, the defendants have and continue to act with willful misconduct. Evidence of such, already in the public domain, is not preliminary; it is overwhelming. Their misconduct ranges from subversion of informed consent, to coercion, to **deception regarding prior known defects in what defendants promote as a “vaccine.”** Existing evidence and then discovery will go far beyond mere misconduct . . . all the way to blatant criminality.

Your orchestration of ‘liability immunity’ implicitly constitutes willful misconduct. The phrase ‘liability immunity’ itself confirms a predilection for deceit. Your shameless endorsement of ‘liability immunity’ is a declaration that the “vaccines” you have injected into the innocent cannot withstand open examination and medical truthfulness.⁴

⁴ A sinister outcome of liability immunity: Exploitations by pharmaceutical comrades; exploitations that occurred **before** their for-profit “vaccine” was distributed (See ‘Emergency Use Authorization Lie #3,’ page 19 below)!

Keys to Genocide: Fauci Inspired *Emergency Use Authorization (EUA)*

The general population, **the target of your genocide**, those that comprise true humanity; they are increasingly aware of the repulsive character of “America’s Doctor.” Their outrage is further inspired when informed of your Emergency Use Authorization (EUA) of December 11, 2020, offered in servility, in behalf of your comrade Mr. Albert Bourla of Pfizer.

The underbelly of the COVID-19 EUA is three-fold. **Characteristically, all three are lies.**

Keys to Genocide: Fauci Inspired *Emergency Use Authorization (EUA)* - con't

EUA Lie #1: There is a public health emergency that has resulted from human infection by a naturally occurring virus called SARS-CoV-2.

Naturally occurring?! My placement of “SARS-CoV-2 virus” in quotation is purposeful and routine. Your claims that SARS-CoV-2 came from a Chinese bat are ludicrous. Your attempts to escape **treasonous culpability** by declaring (under oath at the US Senate) that the definition of Gain of Function (GOF) is “nebulous” **provides further confirmation that your integrity is an issue.**

There are no emails that explain to GOF co-conspirator Mr. Peter Daszak, that ‘Gain of Function’ is undefined or that he and your staff must use the latest “operable” revision:

The Project Veritas report by Mr. James O’Keefe, which details GOF negotiations between the DARPA PREEMPT program and Peter Daszak / EcoHealth Project DEFUSE have eliminated any remaining tolerance for your adolescent nonsense about “naturally occurring.” ⁵

Your bluster that SARS-CoV-2 was spawned via a Chinese bat, was/is a “virus” *per se*, and that it was “naturally occurring” is a lie that is now an indelible part of your historical criminal legacy.

⁵ See US Marine Corp Major Joseph Murphy (DARPA fellow) report of August 2021 to the IG of DoD: “SARS-CoV-2 matches the SARS vaccine variants the NIH-EcoHealth program was making in Wuhan.”

Keys to Genocide: Fauci Inspired *Emergency Use Authorization (EUA)* - con't

EUA Lie #1: There is a public health emergency that has resulted from human infection by a naturally occurring virus called SARS-CoV-2.

There never was a “public health emergency,” based solely on SARS-CoV-2.

Regarding lethality of your GOF pathogen, marketed as SARS-CoV-2, you were fully aware of data which confirms that announcements by vested interests during 2020 were fraudulent:

There never was a bona fide ‘public health emergency’ attributable to “SARS-CoV-2.” ⁶

Proof is now overwhelming, that the year-2020 declaration of a public health emergency (based solely on SARS-CoV-2) was a fraud. Proof is highlighted by, but not limited to, Lancaster, Pennsylvania, Oral Roberts University, and the nation of Nigeria. ⁷

⁶ Vested-interests include the NIH, NIAID, CDC, FDA, WHO, the UN, Donald Trump, China CDC, Klaus Schwab, hospital administrators, John Hopkins University, Cornell University administrators, Bill Gates, Albert Bourla of Pfizer; and face mask manufacturers. ‘Keys to Genocide’ items below detail **what *did* cause a genuine public health emergency**, but these causes had **no** direct connection to your GOF pathogen. From face masks, to lockdowns, to needle mandates; these non-SARS causes were deployed for marketability (See ‘**EUA Lie #2 : There is no medical / medicinal alternative to a Vaccine for the Successful Treating of the “SARS-CoV-2” Induced COVID-19’**).

⁷ You and Big Academia are responsible-for and connectable-to the horror that has befallen a lovely family from Nigeria; see “Mr. Anthony Fauci “Guidance” and the Case of Mrs. Jummai Nache” (Pages 36 through 44 below).

EUA Lie #1: There is a public health emergency that has resulted from human infection by a naturally occurring virus called SARS-CoV-2.

There never was a “public health emergency,” based solely on SARS-CoV-2.

Your promotions of EUA Lie #1 has devastated the safety and well-being of Cornell University. That lie is fortified by the notion that PCR testing *per se* is reliable, regardless of absurdly high Cycle Threshold Values (CTV). According to you and your comrades in Day Hall, these PCR “results” justify ongoing and very recent headlines:

In your interview of July 17, 2020, when confronted with honest expertise, you stated:

“What is now sort of evolving into a bit of a standard, that if you get a cycle threshold of 35 or more, that the chances of it being replication competent are miniscule. So that if somebody, and we do have patients, and it’s very frustrating for the patients as well as for the physicians, somebody comes in and they repeat their PCR and it’s like 37 cycle threshold. But you never, you almost never can culture virus from a 37 threshold cycle. So I think if someone comes in with 37, 38, even 36, ya gotta say, ‘Ya know it’s just dead nucleotides, period!’ ”

In this interview you lied about the reporting of the CTV to patients that your comrades have declared as “positive.” You falsely claim that the reporting of the CTV is, “standard practice.”

So, Mr. Fauci, among whom is the sharing of the CTV “standard practice” ?!

How many of the Cornell students and staff, that I have interviewed, that Day Hall had declared were “positive” (ala the headline above), were simultaneously told their CTV? ***ZERO !!***

How many students/staff are aware that the practice that does afflict them involves a university administration fraud; how many are aware that Cornell’s routine PCR CTV is:

45 !

EUA Lie #2: There is no medical/medicinal alternative to a Vaccine for the Successful Treating of the “SARS-CoV-2” Induced COVID-19.

A repulsive aspect of the COVID-19 pandemic is your success promoting the lie that the “virus” was a “surprise outbreak.” You primed that global “vaccine” scheme, not later than January 2017:

“There will be a challenge (for) the coming Administration in the arena of infectious diseases, both chronic infectious diseases in the sense of already ongoing disease, and we have certainly a large burden of that, but also there will be a surprise outbreak.”

Page 3 of my letter to attorney Mr. Michael van der Veen, I reviewed the following three issues: ⁸

1. The notion that COVID-19 was a “surprise outbreak” is farcical.
2. The so-called “COVID-19 vaccine” is not in response to the SARS-CoV-2 virus; but the exact opposite! Attempts to patent mRNA contraptions, and market such as a “vaccine” for SARS-CoV-1 had failed. SARS-CoV-2 was intentionally released to overcome (“blow up!”) traditional systemic approaches to vaccine formulation, development, and safety confirmation protocols. A conspiracy theory? Hardly. Defendants and associated witnesses have already boasted of this reality, in public!
3. Establishment of ‘liability immunity’ in behalf of Subject 1 defendants is the result of a global criminality that is unprecedented in human history. In terms of evidence-based judgement, the only other entity that has so brazenly sought to be ‘immune from liability’ is Satan himself. We are dealing with evil greedy people.

⁸ Items #1 and #2 connect to the rejection of the Fauci patent application (page 6 above). I wrote Item 2 to Mr. van der Veen several months prior to the *Project Veritas* release of January 10, 2022 (Footnote 4 above). However, I also detailed for Mr. van der Veen the vile source of the “blow up” sputum (Page 17, Attachment 1).

Keys to Genocide: Fauci Inspired *Emergency Use Authorization (EUA)* - con't

EUA Lie #2: There is no medical/medicinal alternative to a Vaccine for the Successful Treating of the “SARS-CoV-2” Induced COVID-19.

Page 18 of my letter to Mr. van der Veen discusses how your “virus” was *also* being promoted by HHS/FDA; the organization that later issued the Emergency Use Authorization . . .

On October 29, 2019, a short walk to Pfizer’s New York headquarters, while on-stage right next to Health and Human Services (HHS) Director Rick Bright, you heartily endorsed Dr. Bright’s slightly re-worded, but equally ***staggering*** verbiage about a “surprise outbreak.”

“There might be a need, or even an urgent call for an entity of excitement out there, that’s completely disruptive, that’s not beholden to bureaucratic strings and processes . . . But it is not too crazy to think that an outbreak of a novel avian virus could occur in China somewhere . . .”

Mere weeks later, December 2019, the first case of COVID-19 was proclaimed in China. ⁹

⁹ A key guest of the Milken Institute was **Mr. Albert Bourla of Pfizer**, who promoted ***“the likelihood of developing a vaccine by the end of 2020.”*** Later his deadly mRNA contraption was deployed by a criminal EUA, its documented defects hiding behind the Fauci-inspired **liability immunity** . . . see pages 7 and 8 above.

Keys to Genocide: Fauci Inspired *Emergency Use Authorization (EUA)* - con't

EUA Lie #2: There is no medical/medicinal alternative to a Vaccine for the Successful Treating of the “SARS-CoV-2” Induced COVID-19.

With fear inflicted upon the innocent population, and your pandemic in full global deployment, low-cost alternatives to a “vaccine” (budesonide, Ivermectin or hydroxychloroquine) would be officially resisted, while advocates would be libeled and slandered and threatened.¹⁰

But . . . Dr. Bright, the person who assisted your pandemic with “*an entity of excitement*”!?
What was Dr. Bright’s other role during your pandemic?

“United States Department of Health and Human Services (HHS), Dr. Rick Bright, Director of the Biomedical Advanced Research and Development Authority (BARDA), disclosed potential safety risks and the lack of efficacy associated with use of chloroquine and hydroxychloroquine as therapeutic treatments for COVID-19.”

In my letter of July 21, 2020, five pages exposed ***your*** lies about hydroxychloroquine (HCQ), including collaboration with Surgisphere. Their “study” **was a fraud; so fraudulent that your “vaccine” marketeers at The Lancet were forced to retract its publication.**

¹⁰ Your previous attempts to patent mRNA technology, under the marketing term “vaccine,” failed as late as 2003 (Page 6 above). Dr. David Martin and Dr. Reiner Füllmich have also presented enormous evidence regarding your customary threats/intimidations (Page 20, letter to Mr. Michael van der Veen; Attachment 1).

Keys to Genocide: Fauci Inspired *Emergency Use Authorization (EUA)* - con't

EUA Lie #2: There is no medical/medicinal alternative to a Vaccine for the Successful Treating of the “SARS-CoV-2” Induced COVID-19.

In my letter of August 27, 2021, I detailed three non “vaccine” treatment protocols for COVID-19. In each instance I described **the overwhelming success of the protocols**, and listed sample *practicing* medical doctors: (1) *Hydroxychloroquine*, Dr. Vladimir Zelenko, (2) *Ivermectin*, Dr. Pierre Kory, and (3) *nebulized Budesonide*, Dr. Richard Bartlett. ¹¹

The August 2021 report by **US Marine Corp Major Joseph Murphy** is entitled, “SARS-CoV-2 matches the SARS vaccine variants the NIH-EcoHealth program was making in Wuhan.” On January 11, 2022, Senator Ron Johnson (R-WI) sent a letter to DoD, stating:

According to the Major’s disclosure, EcoHealth Alliance (EcoHealth), in conjunction with the Wuhan Institute of Virology (WIV), submitted a proposal in March 2018 to the Defense Advanced Research Projects Agency (DARPA) regarding SARS-CoVs.² The proposal included a program, called DEFUSE, that sought to use a novel chimeric SARS-CoV spike protein to inoculate bats against SARS-CoVs.³ Although DARPA rejected the proposal, the disclosure alleges that EcoHealth ultimately carried out the DEFUSE proposal until April 2020 through the National Institutes of Health and National Institute for Allergy and Infectious Diseases.⁴ The disclosure highlights several potential treatments, such as ivermectin, and specifically alleges that the EcoHealth DEFUSE proposal identified chloroquine phosphate (Hydroxychloroquine) and interferon as SARS-CoV inhibitors.⁵

In essence, EUA Lie #2 claimed that the only remedy for your “pandemic” was use of a needle, supplied by the individual on Page 9 above. That lie **constitutes criminal fraud**. In contrast, it must be re-emphasized . . . none of the three off-patent non “vaccine” protocols is covered by, nor *need* to be covered by, your liability immunity.

Assuming Major Murphy’s report is accurate, are you claiming that EcoHealth comrade Mr. Peter Daszak was aware of the benefits of Hydroxychloroquine (ala Project DEFUSE, way back in 2018), but you were ignorant while orchestrating your May 27, 2020 crap with Surgisphere and Politico?!

But EUA Lie #1 and EUA Lie #2 pale in comparison to EUA Lie #3.
Once again, evidence of Fauci footprints and fingerprints are everywhere. ¹²

¹¹ These are real practicing medical doctors, with real COVID-19 patients; **none** the latter have returned in under your vaccine marketing ruse: “break through cases” (Pages 16, 17 and 18 of Attachment 6).

EUA Lie #3: The Pfizer clinical trials conducted under *Operation Warp Speed* were competent, truthful and an accurate indicator of COVID-19 “vaccine” safety and effectiveness

EUA Lie #1 and EUA L#2 were *dependent* on EUA Lie #3. Operation Warp Speed was the marketing brand for an operative that was predicated upon the globalist technocracy timetable of Mr. Klaus Schwab, and his “COVID-19: *The Great Reset.*” Alternatively, the hard data confirms, the EAU had minimal if-any connection to “safe and effective vaccines.” ¹³

Central to EUA Lie #3 is the Fauci-inspired conspiracy of liability immunity; without it there is no possibility that the Pfizer needle would be deployed to infect the global population; a needle funded by the US Treasury, the source of billions in profits for “The Vaccine King.”

The global populations are unaware of how corrupt the FDA ‘Emergency Use Authorization’ of December 11, 2020 really was. Given the pervasive but censored dangers of the Pfizer needle, humanity does not know the details of how corrupt the EUA needed to be. ¹⁴

¹³ In my letter to you of 27 August 2021, I exposed the comradeship of Pfizer CEO Mr. Albert Bourla with the current president of my alma mater. Their comradeship goes far beyond conspiratorial membership at the COVID-19 New York State Forward Reopening Advisory Board (Page 20, Attachment 6).

¹⁴ Similar to the awareness of your criminality among US citizens, global citizens are becoming aware of the same status for Mr. Albert Bourla. See report by Public Citizen, *Pfizer Power* (Attachment 7).

EUA Lie #3: The Pfizer clinical trials conducted under *Operation Warp Speed* were competent, truthful and an accurate indicator of COVID-19 “vaccine” safety and effectiveness

Page 8 above: **“Your shameless endorsement of ‘liability immunity’ is a declaration that the “vaccines” you have injected into the innocent cannot withstand open examination and medical truthfulness.”**

Attorney Tom Renz represents a Pfizer employee who is now protected under the Whistleblower Protection Act. **Six weeks prior to the EUA**, on October 22, 2020 the FDA Center for Biologics Evaluation and Research (CBER) secretly presented the following slide to Pfizer:

FDA Safety Surveillance of COVID-19 Vaccines :

▪ Anaphylaxis	▪ Arthritis and arthralgia/joint pain
▪ Acute myocardial infarction	▪ Kawasaki disease
▪ Myocarditis/pericarditis	▪ Multisystem Inflammatory Syndrome in Children
▪ Autoimmune disease	▪ Vaccine enhanced disease

You were fully aware of “adverse event outcomes” prior to your party with New York Governor Andrew Cuomo; your meeting with him of December 8, 2020 was in preparation for the FDA EUA **gala** of December 11, 2020 . . . a mere three days later.

Violating ‘Duty to Warn’ tort law, you never alerted President Donald Trump about the known horrors of the Pfizer mRNA needles, **prior-to** or after the Emergency Use Authorization.

You never alerted America about the October 2020 CBER presentation, especially their warning about Venous Thromboembolism; **you failed in your duty to warn Mrs. Jummai Nache.**¹⁵

¹⁵ I detail your RICO crimes on Page 6 of my 27 August 2021 letter (Attachment 6). This instant letter concludes by declaring connections of your crimes against humanity, including the horrors caused by liability immunity, the EUA, “vaccine mandates,” and the Pfizer needle . . . the needles inflicted upon immigrants from Nigeria, **the Nache family.**

EUA Lie #3: The Pfizer clinical trials conducted under *Operation Warp Speed* were competent, truthful and an accurate indicator of COVID-19 “vaccine” safety and effectiveness

On page 10 of my March 6, 2021 letter to the Ivy League University presidents, I introduce the legal issue of ‘Duty to Warn.’ In any context, but especially your liability immunity and the known defects of the Pfizer needle, **their** failure to address ‘Duty to Warn’ in-behalf of students/staff constitutes willful misconduct (Attachment 8).

I also presented to the Ivy League, a screenshot from the Cornell “New Normal” webpage:

Is the vaccine safe? ⚠️ UPDATED MAR 3

All data currently available indicate that the vaccines are safe. Thus far, no serious long-term side effects have occurred and no study participants who received vaccine died of COVID-19. Some individuals do experience minor side effects that reflect the body’s immune response beginning; a tiny number of individuals have experienced allergic reactions and have required immediate treatment, which has been successful.

On August 27, 2021, I reviewed the following crap from the Cornell Health website (Attachment 6):

How effective is the vaccine?

Pfizer reports that the vaccine is 95% effective. Moderna reports that their vaccine is 94% effective.

“All data currently available”? “Pfizer reports that the vaccine is 95% effective”?!

Both are outrageous lies; one by commission, the other by omission.

It came as no surprise that following receipt of my letters, Cornell administrators scrubbed both of these bold-faced, “vaccine” promoting lies from their websites.

An *alleged* source of these two Cornell administration lies is shown next.

The NEW ENGLAND JOURNAL of MEDICINE

RESEARCH SUMMARY

Safety and Efficacy of the BNT162b2 mRNA Covid-19 Vaccine

F.P. Polack, et al. DOI: 10.1056/NEJMoa2034577

CLINICAL PROBLEM

Safe and effective vaccines to prevent severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) infection and Covid-19 are urgently needed. No vaccines that protect against betacoronaviruses are currently available, and mRNA-based vaccines have not been widely tested.

CLINICAL TRIAL

A randomized, double-blind study of an mRNA vaccine encoding the SARS-CoV-2 spike protein.

43,548 participants ≥ 16 years old were assigned to receive the vaccine or placebo by intramuscular injection on day 0 and day 21. Participants were followed for safety and for the development of symptomatic Covid-19 for a median of 2 months.

RESULTS**Safety:**

Vaccine recipients had local reactions (pain, erythema, swelling) and systemic reactions (e.g., fever, headache, myalgias) at higher rates than placebo recipients, with more reactions following the second dose. Most were mild to moderate and resolved rapidly.

Efficacy:

The vaccine showed protection 7 days after the second dose; 95% efficacy was observed.

LIMITATIONS AND REMAINING QUESTIONS

Further study is required to understand the following:

- Safety and efficacy beyond 2 months and in groups not included in this trial (e.g., children, pregnant women, and immunocompromised persons).
- Whether the vaccine protects against asymptomatic infection and transmission to unvaccinated persons.
- How to deal with those who miss the second vaccine dose.

Links: Full article | Quick Take | Editorial

Vaccine efficacy of 95% (95% credible interval, 90.3 –97.6%)

CONCLUSIONS

Two doses of an mRNA-based vaccine were safe over a median of two months and provided 95% protection against symptomatic Covid-19 in persons 16 years of age or older.

EUA Lie #3: The Pfizer clinical trials conducted under *Operation Warp Speed* were competent, truthful and an accurate indicator of COVID-19 “vaccine” safety and effectiveness

Perspective: Cornell administrators cannot make claims of “leadership” to a world class university; one that is world famous for its undergraduate, graduate, Doctor of Philosophy, Juris Doctor, and Doctor of Medicine degrees (to name a few); with specialties ranging from entomology, biological science, chemistry, genetic science, public health science, biomedical engineering, computer science, genetic engineering, food science, plant sciences, law, information sciences, veterinary medicine, mathematics, and statistical science . . . again, to name a few . . . **while those very same Cornell administrators are ostensibly claiming, by their words and deeds:**

“We do not know the difference between Relative Risk Reduction versus Absolute Risk Reduction.”

PFIZER'S INOCULATIONS FOR COVID-19 / MORE HARM THAN GOOD

PFIZER'S ORIGINAL TRIAL REPORT DECEMBER 31 2020

- Published in New England Journal of Medicine
- Showed **2 months worth of safety & efficacy data**
- Described starting with 43,548 people divided into:
 1. **Treatment group** (received inoculation)
 2. **Control group** (received saline)for 2 months to see who developed COVID-19
- ➔ The claim was that the inoculations were safe and showed **95% efficacy 7 days after the 2nd dose**. But that 95% was actually **Relative Risk Reduction**. **Absolute Risk Reduction** was only **0.84%**.

Mr. Fauci, the above “leadership” admonishment applies to dishonest Cornell administrators; therefore it applies to you in manifold!

The next screenshot is your ‘vaccine mandate’ marketing stunt of October 9, 2020, identified by the repulsive term coined by Cornell administrators, “*StayHomecoming 2020.*”

EUA Lie #3: The Pfizer clinical trials conducted under *Operation Warp Speed* were competent, truthful and an accurate indicator of COVID-19 “vaccine” safety and effectiveness

That “America’s Doctor” would degrade the Cornell gala of HomeComing, **to exploit the gullibility** of University students and staff, reduces your status to the “demonic.” ¹⁶

Similar to Cornell administrators, that scrub webpages but only after exposed as frauds, you are *intimately* familiar with Relative Risk Reduction (RRR) versus Absolute Risk Reduction (ARR). You too openly promoted the deception that the former **was** the latter: “95%.” **A bold-faced lie!**

But your antics at StayHomecoming 2020 were not restricted to receiving couched, pre-planned questions from three young coeds. It was a staging of your agenda in behalf of vested-interests; from upcoming vaccine mandates (in behalf of Mr. Albert Bourla), to your deceptions deployed to divert discussion away from your GOF research (in behalf of EcoHealth, the CCP, etc.). Presuming that the rest-of-us were born-yesterday, you exposed plans about your “perfect nightmare” :

“A brand new disease that jumps species, from an animal to a human reservoir, that’s respiratory spread, that has two conflating characteristics. One, it’s spectacularly efficient in its spread from human to human. And two, it has the capability of a high degree of morbidity and mortality, either in the general population, or among a subset or group. And sure enough, here we are in 2020, and we have my perfect nightmare. Namely, a pandemic that has already killed a million people worldwide, and is still raging throughout the world. So what keeps me up at night, is acting out the things that kept me up at night theoretically, is now keeping me up at night practically.”

¹⁶ The quotation marks indicate that this was not my descriptor.

At StayHomecoming 2020 did you not reveal the truth contained in your FOIA-released emails. Those emails confirm that **your “perfect nightmare” was a Gain of Function design criteria!**

During StayHomecoming 2020 you did not fret about “*nebulous*” definitions for Gain of Function, nor were you compelled to revise its definition to an “*operable*” version:

However (per Page 6 and Item 2 of Page 15 above), you **were** compelled to re-assert the underlying COVID fraud; that the “vaccine” was *in response* to your Gain-of-Function “virus.”

And certainly you were not compelled to explain to the Cornell StayHomecoming coeds, that the “vaccine” trials being conducted by Pfizer had already deviated-from and had already violated every basic requirement for “safe & effective” prove-out of any medicine; let-alone a new never-before licensed mRNA contraption for use in humans. **Why is that Mr. Fauci?**

EUA Lie #3: The Pfizer clinical trials conducted under *Operation Warp Speed* were competent, truthful and an accurate indicator of COVID-19 “vaccine” safety and effectiveness

A few weeks after Cornell StayHomecoming 2020, while celebrating the FDA ‘Emergency Use Authorization’ with ex New York Governor Andrew Cuomo, you were fully aware that a basic requirement of an EUA was Level 1 evidence **for safety**:

PFIZER'S INOCULATIONS FOR COVID-19 / MORE HARM THAN GOOD

- A randomized control trial is LEVEL 1 Evidence**, the highest form of evidence there is. It is considered the Gold Standard and is the only way to prove something is true.

You and Cornell administrators were also fully aware that the Randomized Control Trials (that Cornell administrators claimed were the source for their webpages, and later their justification for vaccine mandates), did not occur with full competence and full validity.

For example, you and Cornell administrators were both fully aware that the trials had already been invalidated by an unblinding that occurred as early as July 2020 !

At StayHomecoming 2020 you declared what truly motivated you and your Great Reset clients:

*“The urgency of getting an intervention, both a vaccine and some of the therapies that you and I discussed a little while ago. To get them ready, because you know as a physician, and a physician-scientist, I am very **cognizant** of people getting sick and of people dying. That’s real stuff for me! That’s not a statistic. ‘Cause when you do it every day, it’s not a statistic. So, it doesn’t worry me, it gives me more energy to say, ‘We’ve gotta get a vaccine. We’ve gotta get drugs. And we’ve gotta get people to listen to us, when we say what the public health measures are that we need to follow.’”*¹⁷

Never during your mRNA needle sales campaign, have you admitted cognizance of the proven safety & effectiveness of low-cost medicines: Hydroxychloroquine, Ivermectin or budesonide. Instead, you have been spewing “guidance” that accommodates Mr. Klaus Schwab.

Crimes Against Humanity: Fauci Inspired Suicide / Murder of the World's Children – con't

My thesis of December 21, 2020 states that your criminality is connectable to the suicide death of our children. My thesis has not diminished; recent releases of your emails has further affirmed it:

Leaked E-mails: Fauci, Collins Worked on “Quick and Devastating” Smear Campaign Against Anti-lockdown Message

Over a year ago, on Page 7 of my December 21, 2020 letter, I asserted:

“It is abundantly clear, had the Smith family merely resided in Florida, wherein “lockdowns” are reduced to non-existence, the schools are open, and the students enjoy normal social interactions; in that residence the probability of the suicide death of a child, 16 year-old Spencer William Smith, drops to zero.”

Crimes Against Humanity: Fauci Inspired Suicide/Murder the World's Children - conclusion

As the whole world can now see, my thesis of December 21, 2020 stating your criminality (and its connection to the suicide death of our children) has not diminished in validity. An example of **your vile email record confirms that you are the one that has been “devastating.”**

Hi Tony and Cliff,

See <https://gbdeclaration.org/> This proposal from the three fringe epidemiologists who met with the Secretary seems to be getting a lot of attention – and even a co-signature from Nobel Prize winner Mike Leavitt at Stanford. There needs to be a quick and devastating published take down of its premises. I don't see anything like that on line yet – is it underway?

Over a year ago, on Page 9 of my December 21, 2020 letter, I asserted:

“Were it not for the fraud of ‘amplification,’ central to your lies of PCR-based testing as the ‘gold standard,’ the governor of Maine would not have had exaggerated ‘confirmed cases,’ and therefore would be unable to enforce her Bolshevik-styled lockdown . . . that 16-year-old Spencer William Smith had connected in the suicide note as his primary reason to take his own life.”¹⁹

Mr. Fauci, it's called manslaughter. But before you assert your divinity, perhaps the fact that many are in-agreement with my thesis is instructive . . . especially if ‘the many’ are **typified** by a respectful front line nurse of the highest standing with her patients, and her employer.

Meet Nurse Ms. Morgan Wallace:

¹⁹ Review of the ‘Big Testing Regime’ (from over a year ago) now connects to your “guidance” presented on Page 14 above, and your full awareness that the PCR regime deployed against the Cornell/Ithaca community has a CTV of 45! One can speculate why you and the Cornell administrators forgot about your pre-EUA PCR lectures of October 2020.

Crimes Against Humanity: Murder by Withholding Successful COVID Protocols

“Everyone who died with COVID should be considered murdered.”

The transcript of her January 4, 2022 talk is on Page 35 above. As expected, the video of her talk has been banned by your comrade Susan Wojcicki of YouTube. But I preserved a copy here:

Crimes Against Humanity: Murder by Withholding Successful COVID Protocol - conclusion

“Everyone who died with COVID should be considered murdered.”

New Hanover County School Board, Wilmington, North Carolina, 4 January 2022 (Transcript)

“I’m (nurse) Morgan Wallace. I am a 10-year employee of New Hanover County (hospital). I worked in cardiovascular ICU for five years I was your last line of defense with COVID.

We ran your heart and lungs outside your body with your chest open while you were bleeding on the floor. **And what I realized was that patients were needlessly dying because government withheld policies for treating COVID.**

Everyone who died with COVID should be considered murdered. Early treatment has always been effective.

I walked out of the hospital on the mandate day. I have my own practice, and I am the only person in town treating COVID patients prior to hospitalization.

I also watched the entire staff at the hospital including in my unit get vaccinated and then get COVID. Amongst all other kinds of ailments, you have now loaded your body with millions of spike proteins and you are a ticking time bomb for cancer, blood clots, and whatever kind of ailment may come up in your body.

And I’m tired of hearing people go and ask doctors can they be treated for COVID, **and their only option is a vaccine**, or go home, or go into the hospital where you’re not going to make it out.

I’ll be happy to treat any one of you for COVID prior going to the hospital because early treatment has always worked. I’m a member of the FLCCC Alliance, NC Physicians for Freedom, and the Medical Freedom Summit.

And I would ask you all to please stop choosing fear and putting masks on our kids.

The vaccine is not gonna work, early treatment has always worked, and government mismanagement of patients is why people have died.

And families have realized this and they are rising up and they are going to come after governments and the hospital.

I was highly decorated and highly respected at New Hanover. I was the November 2020 employee of excellence, and I had a job opportunity this year from the chief medical director at this hospital and I chose to walk out and stand up for what is right.

So putting these masks on our kids is not going to help, nor is vaccination, and we all need to realize that.

The cat is out of the bag and people are speaking globally, including the inventor of the vaccine.”

Crimes Against Humanity

Mr. Anthony Fauci “Guidance” and the Case of Mrs. Jummai Nache

Given both criminal and civil litigation in this case, I will not verbalize too much in this section.

However, rather than spewing “guidance” from a white tower, working instead in the real world of patients; the following portion of Nurse Wallace’s statement needs to be re-emphasized:

“I also watched the entire staff at the hospital including in my unit get vaccinated and then get COVID. Amongst all other kinds of ailments, you have now loaded your body with millions of spike proteins and you are a ticking time bomb for cancer, blood clots, and whatever kind of ailment may come up in your body.”

It is unlikely that Ms. Morgan has any knowledge whatsoever of the medical or legal case of **fellow-nurse Mrs. Jummai Nache**. . . .

For perspective, you are directed to read the excerpt of the medical report of Mrs. Nache; provided to attorney Mr. Michael van der Veen, Page 21 of Attachment 1:

In their medical report on Mrs. Jummai Nache of 21 May 2021, on Page 183, Dr. Andrew Boucher of the University of Minnesota Medical Center claims:

“Assessment:

Jummai P Nache is a 50 year old female patient who is following up after a prolonged admission and continued rehab after MIS-A. Her clinical course has left her with life-changing physical disfigurement which is almost certainly going to need amputation.

Most of our visit was spent again discussing the potential role of the vaccine in this process. Dr. Fontana shared the letter from the CDC stating that this was MIS-A without clear involvement from the vaccine, though it can't (and likely never will be) excluded as contributing to some extent. Since the last visit, and separate from the laboratory evidence discussed with the CDC, I did have the PF4 antibody testing done on a blood sample saved from around the same day as her arterial thrombotic events. This testing was negative. Thrombotic Thrombocytopenic Syndrome (TTS, previously termed VITT as mentioned in my previous note) is the syndrome linked to the infrequent CSVT and other thrombotic events linked to Johnson and Johnson vaccines.”

Diverting to a needle that Mrs. Nache was not injected with was no accident; Dr. Boucher was fully aware that the mRNA needle, twice-inflicted upon her, was from Pfizer Corporation.

Again, I do not intend to elaborate, instead I will let the following photos do the verbalizations.

You and the person of Footnote 1 have already seen many of the following, but you and she have characteristically ignored them . . . so, **once again** . . . look at these photographs . . . **take a good loooooong look Mr. Fauci.**

Barely visible in the lower left corner we find the results of NOT submitting to the Fauci or University of Minnesota or Cornell University “guidance” :

Had the Nache Family remained in Nigeria, rather than being tyrannized by Fauci and University of Minnesota COVID-19 “guidance,” vaccine mandates, and lockdowns; their physical health and livelihoods would not be so compromised (Attachment 10).

Intermission Three

Demand: Your Forfeiture of all Degrees, Disassociation of Any Affiliation, and Complete Disconnection from Any Prior Accolades/Activities Related in *any* way to my alma mater – CORNELL UNIVERSITY

Conclusion – Part One

Mr. Anthony Fauci: No CRIMINALITY IMMUNITY

Whether coddling co-conspirator Dr. Peter Daszak for assistance with your “perfect nightmare,” or orchestration of liability immunity for characters such as Mr. Albert Bourla of Pfizer; your deeds are not protected by *Criminality Immunity*.

Whether investigating the origins of the so-called “virus,” or the process and long history by which the so-called “vaccine” for COVID-19 was developed and deployed; from beginning to end, **there is always a common denominator: The footprints and fingerprints of “America’s Doctor.”**

If you need further affirmation of how your crimes are directly connectable to the horrors inflicted upon the Nache family (Pages 37 - 43 above), then I direct your attention to readership of Attachment 1.

Conclusion Part Two

To the best of my extensive knowledge of Cornell University; its founder, its founding philosophy, its remarkable and ongoing history of true contribution to the well-being of humanity; **there is no one in the Cornell family that even remotely caused or deserves the following headline:**

FORMAL DEMAND

I make no suggestions/representations that I represent Cornell University in an *official* capacity. I am an ambassador in high standing as a member of the alumni family. In this capacity, and in the context of (1) the above discussion, (2) the gentleman pictured on Page 45, (3) the customary rules that dictate expulsion from Cornell, and (4) in-behalf of the Nache Family:

I hereby demand that you, Mr. Anthony Fauci, forfeit all degrees, that you disassociate from any affiliation, and completely disconnect from any prior accolades/activities that are related *in any way* to my alma mater – CORNELL UNIVERSITY

Cordially,

This is Cornell

Cornell may be likened to a genetically engineered, multicolored chimeric animal, produced by combining the genes of at least a half dozen parents; all of whom are convinced that they contributed the dominant genes.

From where I sit in the tower at the east end of the campus, the chimera has a distinctly greenish hue, reflecting the emphasis on technological advances in biology, the plant and animal sciences, and veterinary medicine that have made us world leaders in improving food production and maintaining environmental quality.

But the chimera's coat has many different colors, and those that predominate depend on the angle of viewing.

In a larger sense, *Cornell* is more than a complex mosaic of disciplines and schools. It is a place of great creativity, nurtured by remarkable individual freedom. It is an institution where excellence and hard work are expected . . . indeed these are the norm.

It is an international community, and those of us who travel abroad are constantly reminded of the respect we command throughout the world simply because we are from *Cornell*.
