Dear Mr. Trump :

On 25 April 2023 “*Letters to Trump*” began selling for nearly \$100.00. Not included in your book are the many letters I sent to you during calendar year 2020 ; all carried dire warnings about **a member of your Health and Human Services staff**. My letters conveyed an urgent recommendation:

RETIRE FAUCI !

That recommendation was not acted upon . . . the nation and its people have suffered ever since.

Immediately after your declaration of a “national emergency,” I forwarded my *first* COVID-19 letter of 12 April 2020; it reviewed the 12 January 2017 plans of **your subordinate, Mr. Anthony Fauci** :

“There will be a challenge (for) the coming Administration in the arena of infectious diseases, both chronic infectious diseases in the sense of already ongoing disease, and we have certainly a large burden of that, but also there will be a surprise outbreak.”

Two years later, 29 October 2019, two of **your subordinates** staged an event in our birth city of New York; a short walk to Pfizer headquarters, an even shorter walk to Weill-Cornell Medical College. Seated adjacent to Fauci was **another subordinate**, Dr. Rick Bright, Director of the Biomedical Advanced Research and Development Authority (BARDA) :

Described by you several times as “disgruntled,” Dr. Bright repeatedly attacked your person and support for hydroxychloroquine; a protocol that was the focus of “research” orchestrated by Fauci and Surgisphere. That “research” was *not* incompetent; **it was criminal fraud** . . . So fraudulent, that on 4 June 2020 *The Lancet* was immediately forced to retract the Fauci/Bright anti-hydroxychloroquine fairy tales.

Bright was the central figure in a docudrama flop called, *Totally Under Control*. That flop never mentions a conference of 18 October 2019 where COVID-19 criminals swarmed for EVENT 201; that Bill Gates funded ruse was advertised as a “high-level pandemic exercise” (See Page 5 below). But the docu-flop also never discusses the *pre*-COVID-19 promotions by Dr. Bright, of 29 October 2019 at the Milken Institute :

*“There might be a need, or even an urgent call for **an entity of excitement** out there, that’s completely disruptive, that’s not beholden to bureaucratic strings and processes...But it’s not too crazy to think that **an outbreak of a novel avian virus could occur in China somewhere . . .**”*

On the first page of my letter to you of 18 September 2020 I stated (screenshot) :

Your phrase “inherited him” might be appropriate to a stray animal that you decided to take on.

Your “inherited him” phrase should *not* be in-reference to a person that resides in one of the most crucial and powerful positions in your Administration. That position should be staffed with a person **openly and enthusiastically praised by you . . .** it should be someone with a reputation for selfless public service to America, a record untainted by the mere possibility of surreptitious agenda; the person should possess an unrivaled and unassailable history of professional conduct and competence . . .

You inherited far more than Mr. Anthony Fauci. Unless you perform strenuous corrective actions, and speak with conviction and integrity regarding the second greatest crime in human history; your inheritance will also include connection of the Trump name *to these five COVID-19 issues* (at a minimum) :

Subject 2, Subject 3, Subject 4, **the portent of Enclosure 2**, and now the legalistic rigor of Reference 1 :

Paxton Launches Investigation into Gain-of-Function Research and Misrepresentations by Covid-19 Vaccine Manufacturers

“The development of the Covid-19 vaccine, and the representations made by and knowledge of Pfizer, Moderna, and Johnson & Johnson, are of profound interest to the public’s health and welfare. This investigation aims to discover the truth,” said Attorney General Paxton. “This pandemic was a deeply challenging time for Americans. If any company illegally took advantage of consumers during this period or compromised people’s safety to increase their profits, they will be held responsible. If public health policy was developed on the basis of flawed or misleading research, the public must know. The catastrophic effects of the pandemic and subsequent interventions forced on our country and citizens deserve intense scrutiny, and we are pursuing any hint of wrongdoing to the fullest.”

This is not diatribe; **indeed I am proposing the exact opposite.** The Civil Investigative Demand, filed on 1 May 2023 by the good Attorney General Ken Paxton of Texas, presents a forum and opportunity wherein you can enact corrective actions, especially regarding **the pre-meditated COVID-19 related deceptions and crimes perpetrated against the Office of the President of the United States of America . . . and its former legitimate office holder, Mr. Donald J. Trump.**

INTERMISSION ONE

Bill 'EVENT 201' Gates, the psychopath that advocates blotting out the Sun, speaking on "vaccine" safety :

"So the second time I saw him **(President Trump)** was the March after that, and so March 2017 in the White House. In both of those two meetings he asked me if vaccines weren't a bad thing, because he was considering a commission to look into, uh, ill effects of vaccines, and somebody, I think his name was Robert Kennedy Jr., was advising him that vaccines were causing bad things. And I said, *'No, that's a dead end. That would be a bad thing, don't do that.'* "

History shows you took the advice of a psychopath, who continues to **laugh all the way to the WEF bank.**

ON NOTICE – Mr. John P. Moore – “The Trump Pandemic”

Of all the despicable self-absorbed people I have endured since enactment of their “*entity of excitement*,” none are more **representative** than an NIH grantee parasite named Mr. John P. Moore:

Shown with “science writer” David Levine, during their mRNA needle promotional gala of 21 January 2021, Moore is **directly connectable** to the horror implied by, and resulting from, the following:

COVID-19 Vaccination Record Card

Please keep this record card, which includes medical information about the vaccines you have received.
Por favor, guarde esta tarjeta de registro, que incluye información médica sobre las vacunas que ha recibido.

ON NOTICE – Mr. John P. Moore – “The Trump Pandemic”

But to Moore, a “consultant” to the Pfizer-BioNTech profiteers, the above medical record of Mrs. Jummai Nache, the focus of Subject 4, is to be derided as an effort by the undersigned to **“stop the steal” (!?)**. See Page 8 below.

Far beyond incompetence, far beyond mere callousness, Moore’s convoluted logic requires explanation ; contextualized by a screenshot from his Weill-Cornell Medical College (WCM) webpage:

EXTERNAL RELATIONSHIPS

Relationships and collaborations with for-profit and not-for-profit organizations are of vital importance to our faculty because these exchanges of scientific information foster innovation. As experts in their fields, WCM physicians and scientists are sought after by many organizations to consult and educate. WCM and its faculty make this information available to the public, thus creating a transparent environment.

 **Consultant:** BioNTech SE; Marks & Clerk Law LLP

“Transparent environment”?!? COVID-19? A few samples for Mr. Moore :

Announcement by Mr. Anthony Fauci of a “surprise outbreak” in January 2017, immediately after their candidate failed to get elected in 2016 ?

Late 2019 “entity of excitement” psychic premonitions by HHS clerks ?

Furin spike protein cleavage sites engineered by fish-eating Chinese bats ?

“Vaccine development” mere weeks later, in early January 2020, despite zero SARS-CoV-2 sequence disclosure from those Chinese bats ?

Blatant fraud of using the PCR process that declared “millions of infections” ?

COVID-19 “national emergency” for lethality equivalent to the common cold ?

Fauci/Bourla/FDA conspiratorial postponement of Pfizer-BioNTech “vaccine trials data” until after the 2020 presidential election ?

“Independent” FDA mRNA approval meetings . . . with Pfizer in-the room ?

Fraudulent ‘Emergency Use Authorization’ (EUA) approval the very next day ?!

Liability Immunity granted to Moore EUA clients such as Pfizer-BioNTech ?!

But perhaps the most representative/indicative of Moore’s “transparent environment” involves his emails.

ON NOTICE – Mr. John P. Moore – “The Trump Pandemic”

Within proverbial seconds, after the fraudulent FDA EUA of Pfizer mRNA needles on 11 December 2020, Mr. Moore of Weill-Cornell Medical College was “consulting” with any media outlets that he could muster. Similar to Anthony Fauci, **Mr. Moore began exposing his true role as sales & marketing rep for Big Pharma** . . . appearing first-off in the Cornell Daily Sun . . . a mere six days after the EUA :

The COVID-19 Vaccine, Explained by Cornell Virologists

By Srishti Tyagi

Enduring the customary adolescent diversionary pre-emptive goo (terms such as “vaccine hesitancy” and “rampant misinformation,” etc.), the reader is awestruck with the expertise presented by Mr. Moore.

Prior to my preliminary questions to Moore, prudence demanded that I await **real-world** “vaccine” data; especially of the sort later **disclosed by the court order of Texas Judge Mark Pittman**.

Prior to the Pittman order, on 2 January 2022 I sent a polite email to Moore (at his Weill-Cornell office), asking **three very simple questions**. Although I restricted my questions to matters pre-ambled by his quotes in the article above, **the following is a screenshot of Moore’s email response** :

From: John P Moore [<mailto:jpm2003@med.cornell.edu>]
Sent: Sunday, January 02, 2022 1:56 PM
To: Paul V. Sheridan

Subject: The COVID-19 Vaccine, Explained by Cornell Virologists (Article)

Mr. Sheridan,

A quick Google search shows you to be a member of the ultra-right, anti-vaccine, “stop the steal” (sic) movement that has caused so much damage to our nation during the pandemic, not least by causing so many unnecessary COVID-19 deaths via the spread of lethal disinformation. I have attached three articles that you should read as you clearly need exposure to fact-based information. But as I have no interest in a discussion with someone who is so entrenched in dangerously anti-social activities I have blocked your email address - so there is no point to your replying to my email.

John Moore

Of course, there is no such “Google search.” Of course **none** of the obtuse nonsense in his “fact based” articles were even remotely responsive to my questions. **Implicitly**, Moore refused to respond with any degree of integrity, let-alone decency. The email exchange and the Cornell Daily Sun article are enclosed.

ON NOTICE – Mr. John P. Moore – “The Trump Pandemic”

In part, this letter serves to place Moore ON NOTICE. His vile response to my email is characteristic of those directly/indirectly responsible for Enclosure 2. That Moore is connectible to Subject 4 is established by the RICO crimes that he and his ilk influenced/promoted, especially in early 2021. That the poisoning of Mrs. Jummai Nache and the Moore mRNA video of 21 January 2021 is **proximate and legally causative** is obvious . . . but full document discovery under Reference 1 will obliterate the anticipated defense posturings that this proximity is merely coincidental or circumstantial.

Lashing out with adolescent *deflective* email temper tantrums, while feigning concern about “so many unnecessary COVID-19 deaths via the spread of lethal disinformation,” Moore (and his brethren) insidiously **exemplify** that very lethality . . . the factual history of COVID-19 and its so-called “vaccine,” and the true culprits of disease politicization, were and are now increasingly exposed . . . Moore is not merely associable with disease politicization and its results (Subject 4, Enclosure 2, etc.), **he is endemic to it.**

The treasonous criminal that defiles our White House, is an unprecedented embarrassment, but was lauded by Moore-types for his promise to **mandate** mRNA needles, was “inaugurated” on 20 January 2021. Clearly orchestrated, the following premeditated **Moore slanders levied against the Trump family name . . . the following Moore quote occurred as part of his mRNA sales video the very next day !**

“Lack of leadership. Lack of discipline in the population. A ‘devil may care’ attitude in too many parts of the country. The ‘coronavirus isn’t real.’ Ya know, a lot of us privately called it ‘the Trump Pandemic,’ because Trump had a lot to do with the outright failure; his failure to do anything about it (garbled), ‘the Trump Pandemic.’ If he had influenced his supporters to take the virus seriously, not go to super-spreader events, wear a mask . . . it’s a shocking lack of leadership.”

We emphasize 21 January 2021; the date of the mRNA sales video (Page 6 above). Well-known to Moore, at that time no reliable real-world data was available for the post-EUA COVID “vaccines.” Regardless, he spewed unfounded, completely unsubstantiated **prognostications** about those mRNA needles :

*“The risk of (mRNA) vaccine is vastly, vastly, vastly less, and ya know, people die of coronaviruses. **They’re not dying of vaccines.** Ya know, these **allergic reactions** have gotten a bit of coverage; they’re one in a hundred thousand, to one in two hundred thousand events. People that have them, **they’re equivalent to a bad reaction to a bee sting.** Well, I’ll take that chance!”*

Memo : Shown at-right is a thermograph of a 23-year-old COVID-asymptomatic soccer player. The darkening represents escalating blood-clot-like formations that commenced **immediately** after a “bee sting” ? Mrs. Jummai Nache (Subject 4) ?

INTERMISSION TWO

You have referred to the news media as “the enemy of the people.” Given the moneychanger cowardice inflicted upon Mr. Tucker Carlson (as a recent example), you are *once again* shown to be correct.

Other than The Stew Peters Show, the media **has failed miserably** to expose the vicious historical truths that led to Anthony Fauci’s “*surprise outbreak*,” and Dr. Rick Bright’s “*entity of excitement*,” **and especially Mr. Albert Bourla’s LIABILITY IMMUNITY. Relative to Subject 3**, in far too many letters I have been compelled to pose the following :

Pre-planned Underbelly of COVID-19 Criminal Enterprise is *Liability Immunity*

I have asked *many* times :

Does anyone actually believe that Mr. Albert Bourla would have sold his mRNA needles into a market wherein he and Pfizer were *not* protected by liability immunity?!

If the ongoing John Moore and Donald Trump “COVID vaccine” promotional zeal is valid, then why is the mRNA injection ***still*** protected by LIABILITY IMMUNITY?!

CONCLUSION

It is incumbent upon you to resolve the Subjects. Given current circumstances/facts there is no downside to doing so. In blunt terms, you and the nation were repeatedly deceived regarding "COVID-19."

- Subject 1 :** **Rehabilitation of the Trump Political Legacy by Full Denunciation of Subject 2**
Subject 2 : **Original Criminality of COVID-19 and its Birthright 'Operation Warp Speed'**
Subject 3 : **Your Ongoing Failure to Forthrightly Disclose to the Trusting American People the LIABILITY IMMUNITY Protections Exclusive to the (Pfizer) mRNA Needles**
Subject 4 : **Your Culpability in the Pfizer mRNA "vaccine" Injury Inflicted Upon Mrs. Jummai Nache and Her Family**

I also urge you to review material that is intimately well-known to Mr. Anthony Fauci, Mr. John Moore, Mr. Albert Bourla, and many others . . . but will NEVER be reported by the news media. The following presentation of such was made in Brussels, Belgium on 3 May 2023 by Dr. David E. Martin :

Dr. Martin concludes with three recommendations if humanity is to survive. His third, and most crucial : *Open denunciation and formal rescinding of LIABILITY IMMUNITY for Big Pharma (Subject 3).*

Regarding Subject 4, please review Attachment 2 to Enclosure 1 (also Tab 4 below); please do so in the context of my final paragraph, Page 4 above. Please contact me at any time.

Respectfully yours,

Paul V. Sheridan

Ivy League University Presidents
Ivy League University Medical College Deans
Ivy League University Law School Deans

Subject: Your Immediate and Unconditional Resignation

Reference 1: ***“Cause Unknown” : The Epidemic of Sudden Deaths in 2021 and 2022***
by Mr. Edward Dowd (former Managing Director of Blackrock Incorporated)

Reference 2: Blatant Lie Spewed by Mr. Joseph Biden Regarding “vaccine” **Liability Immunity**
at the State of the Union Address (1 March 2022)

Reference 3: Ivy League University Administrator Culpability in the Horrific Pfizer “vaccine” Injury
Inflicted Upon Mrs. Jummai Nache and Her Family

Dear Madam / Sir:

There are eight Ivy League universities: Cornell, Brown, Columbia, Dartmouth, Harvard, Penn, Princeton, and Yale. Seven contain medical colleges, and five have law schools. I am enclosing hard-copies of Reference 1 to each of the eight presidents and twelve deans. The enclosure is not embellished with the naiveté that you will actually read this book, let-alone take it to heart . . . possible, but not expected.

My purpose is to assert Reference 1 as endemic to your true resume; your most indicative “contribution” to humanity. My purpose is to assert in the public domain your legacy; an unprecedented **black mark** upon the historical record of Big Academia that cannot be white-washed, will not be forgotten, and is impossible to dismiss or deride by diversions about “conspiracy theories.”

Subject Basis: You are guilty of complicity-with and participation-in crimes of a global scale; deployed against the trusting and innocent . . . victims of the COVID-19 “vaccines.” In truth, the latter was an mRNA needle that you were fully aware is so defective that deployment could *only* occur if shielded by liability immunity. The mRNA needle was vigorously promoted by Ivy League administrators *in-particular*. “Vaccine” deaths comprise Reference 1. Its Foreword by presidential candidate Robert F. Kennedy, Jr. quotes the author; a quote that partially affirms the results of your criminality :

“From February 2021 to March 2022, millennials experienced the equivalent of a Vietnam war, with more than 60,000 excess deaths. The Vietnam war took 12 years to kill the same number of healthy young people we’ve just seen die in 12 months.”

In several COVID-19 letters I stated:

*“To have the world, they had to have the United States.
To have the United States, they had to have Cornell.”*

It is no surprise that Reference 1 begins with a quote from a world famous Cornell University astronomer. Therefore, we begin with review of ongoing COVID-19 behaviors that are representative, and were indeed anticipated from the current administrators at my alma mater.

In my first COVID-19 letter to Mr. Anthony Fauci, dated 21 July 2020 (forwarded to Ms. Martha Pollack of Cornell and Dean Augustine M.K. Choi of Weill-Cornell Medical College), I posed ten questions. Here is a screenshot of Question 1, from Page 3 :

During the US GOF moratorium, the total amount of US taxpayer funds that were deployed to the Wuhan Laboratory of Virology in China is TBD. One media report stated:

“In 2014, the NIH approved a grant to EcoHealth Alliance designated for research into ‘Understanding the Risk of Bat Coronavirus Emergence.’ The project involved collaborating with researchers at the Wuhan Institute of Virology to study coronaviruses in bats and the risk of potential transfer to humans.”

QUESTION 1

Is the essence of these media reports true; that while employed by the US taxpayer you were directly (or indirectly) connectable to the funding of research or the funding of a research facility that is connectable to the SARS-CoV-2 virus and the resulting COVID-19 pandemic?

My broad question requested a simple ‘Yes’ or ‘No’ response. I had no illusions about a truthful Fauci response. I correctly anticipated much worse from Ms. Pollack (See Pages 6-7 below). Perhaps the dean of the Cornell medical college would ask a similar question? The Cornell Law School dean? But such was not forthcoming from *any* official quarter of Cornell, or the Ivy League. Subject related questions :

Given that Fauci is a Cornell alumnus, why would administrators of our globally renowned life sciences university **not** ask Question 1, or similar? What motivated Cornell administrators to **formally avoid** such questions? And deride those that did ask? What compelled administrators of the lofty Ivy League to proceed in similar avoidance?!

Why would merely asking that question, in-particular, immediately render slander directed against the undersigned, not only by Mr. Fauci, but by several Cornell administrators? Did those slanders have merit?

Almost three years after my letter, we arrive at 8 March 2023, and the sworn testimony of former CDC Director Dr. Robert R. Redfield, before the *House Select Subcommittee on the Coronavirus Crisis*.

Some may argue that Fauci is an immunologist, not a virologist (ala Dr. Redfield), that Fauci was lacking in the latter discipline which explains his promulgations of Chinese bats that dine at Wuhan fish markets. Such diversions about Gain-of-Function (GoF) origins of SARS-CoV-2 have no play; especially given the recent testimony, acquired from astute examination by first-term Congresswoman Nicole Malliotakis (R-NY):

(Dr. Redfield) Thank you very much. I think, just to emphasize, in early to mid January (2020) I did have multiple calls with Fauci and Farrar and Tedros about how important I thought it was that science get engaged in aggressively pursuing both hypotheses. I also expressed, as a clinical virologist, that I felt it was not scientifically plausible that this virus went from a bat to humans, and became one of the most infectious viruses we have for humans. All viruses are not the same. So when you look at coronavirus, SARS and MERS for example, when they entered the human species, which they did via an intermediate, they (the viruses) never learned how to go human to human. **Even to this day, they do not know how to go human to human.** So you cannot equate Ebola with a coronavirus.

.
. .

(Congresswoman Malliotakis) Given what we know now and looking at all the conversations in February of 2020, and before the release of the paper, do you think that Dr. Fauci used the paper to hide the Gain of Function research, that Gain of Function created this (COVID-19) virus?

(Dr. Redfield) I cannot talk about Fauci's motives.

(Congresswoman Malliotakis) Do you think the (February 2020) paper *does* hide the truth?

(Dr. Redfield) I think it is an inaccurate paper that basically was part of a narrative that they were creating. Remember, this (COVID-19) pandemic did not start in January at the seafood market. We now know there were infections all the way back into **September** (2019). This was a narrative that was decided, that they were going to say that this came from a wet market, and they were going to do everything they could to support it, and negate any discussion about the possibility that this came from a laboratory.

(Congresswoman Malliotakis) I have twenty seconds left ... Dr. Fauci was affirmatively told and told in an email that NIAID had a monetary relationship with the Wuhan Institute through Eco-Health Alliance; he was told this in January 27 of 2020. **Do you think that Dr. Fauci intentionally lied under oath to Senator Paul when he (Fauci) vehemently denied NIH funding of the Gain of Function research?**

(Dr. Redfield) I think there is no doubt that NIH was funding Gain of Function research.

(Congresswoman Malliotakis) Is it likely American tax dollars funded the gain of function research that created this (SARS-CoV-2) virus?

(Dr. Redfield) I think not only from NIH, but from the State Department, and from NIAID, and DoD.

Regarding long-term assessment of Fauci character, even upon the campus of Cornell, esteemed Professor of Chemistry, Dr. David B. Collum emphatically stated in a widely broadcast interview of 3 August 2021 :

“He’s a pathological liar!”

My letter of 5 October 2022 was comprised as follows (screenshot):

5 October 2022

Mr. Anthony S. Fauci Director – NIAID 5601 Fishers Lane Rockville, MD 20852 301-496-2263 / anthony.fauci@nih.gov	Ms. Martha E. ---	--	--	--

Subject : Mrs. Jummai Nache and her Family

Reference 1:	The “Fauci Effect”	Reference 2:	The Pollack Effect
Reference 3:	The Bourla Effect	Reference 4:	The Trump Vaccine

Note that its Subject is the same as instant Reference 3: Mrs. Jummai Nache and her family. The only person that responded was Pfizer CEO Mr. Albert Bourla. A link to my video presentation of the Bourla response is offered below:

<https://rumble.com/v247vpk-the-bourla-response.html>

Although it stood on existing merits, my 5 October 2022 letter must now be *re-reviewed* in the context of **the testimony of Dr. Redfield** (pages 3-4 above). On page 6, I had asserted to Mr. Fauci (screenshot) :

Summary: Whether at the *onset* (creation of SARS-CoV-2 as an “entity of excitement”) or at the *finale* (deployment of the mRNA needles), the Fauci Effect and its connectability to the Subject *has zero wiggle room.* *

Again, the Subject of my 5 October 2022 letter was Mrs. Jummai Nache and her family. My assertion of ‘*zero wiggle room*’ (regarding that Subject) applies with equal stridence to the Ivy League administrators. **As an exemplar, Ms. Martha Pollack of Cornell, we review her opening COVID-19 salvo from 2020.**

Despite her receipt of my 21 July 2020 letter to Fauci (Page 2 above), the Pollack “response” did not embrace its manifold portent, or the concerns of a respected and deeply loyal member of the Cornell Family; not even close. Instead, and characteristically, **she inflicted upon the campus the most grotesque and the most abusive agenda-driven event in Cornell University history.**

On 6 October 2020 Pollack welcomed, with unbridled gala, *thee* juvenile of the (post Event 201) COVID-19 crime syndicate . . . Anthony ‘Mr. Science’ Fauci:

We again emphasize the testimony of former CDC Director Dr. Redfield of 8 March 2023. In the fifteen-plus letters that I forwarded to Pollack, overwhelming evidence was provided on the criminal status of Mr. Fauci. But **after** the Congressional testimony of Dr. Redfield, and **after** publication of Reference 1; has anything been revised? **If nothing, then what actions exemplify ongoing Cornell administration response-to and participations-in the global COVID-19 crime syndicate? A recent sample on overleaf :**

The felon is still welcomed with open arms . . . and with open University Development fund-raising hands:

These Ivy League COVID-19 related behaviors have no connection to health. This is demonstrably true in view of your endorsement of *thee* underbelly of the COVID-19 crime syndicate : **LIABILITY IMMUNITY**.

Many of the crimes committed by Ivy League administrators are esoteric. Our Law School deans could explain to lay people the simple criminality of the PREP Act provision called: **LIABILITY IMMUNITY**. The complicity and avoidance of Ivy League administrators on this topic alone entangles their once-hallowed institutions with subterfuge at-best; outright criminality in-truth.

The Emergency Use Authorization (EUA), issued by the FDA on 11 December 2020, is key to the legalistic fraud that shields mRNA technology in-particular ! That scenario was sought long before Event 201. But by-definition, an EUA does **not** allow claims of safety and efficacy, let-alone effectiveness; especially for the never-before-used mRNA needle. An EUA **implicitly** declares that such claims are unsubstantiated; and therefore illegal:

Mr. Fauci, Ms. Pollack, Mr. Bourla, and Mr. Trump cannot have it both ways. When deployed under, and still shielded by an EUA, the phrase “*safe and effective*” is not merely a misnomer . . . **spewing that phrase under an EUA is a crime**.

I have asserted these points many times in my letters to Fauci, Bourla, Pollack, Trump, et al. If the mRNA needles were as claimed, then release would not cover behind an EUA, but instead would have been authorized under a full FDA approval. If the mRNA needles were what Ivy League administrators forcibly claimed to students, staff and faculty; then the provision of LIABILITY IMMUNITY would not be necessary.

We now move to **Reference 2 (Attachment 1)** . . . which focused on the March 2022 State of the Union address, and the **blatant lie** spewed by “President Joseph Biden.”

“ Repeal the liability shield that makes gun manufacturers the only industry in America that can’t be sued. The only one! ”

Not one Ivy League Law School dean challenged this bold-face lie; not one! And no correction came from Pfizer CEO Mr. Albert Bourla. And certainly there was no response from Fauci . . .

All of you are aware of LIABILITY IMMUNITY. The so-called COVID-19 pandemic was the first time in American history that LIABILITY IMMUNITY was foisted upon an innocent and trusting public. Indeed, you wallow in its financial implications for University Development prospecting.

On the basis, among others, that the US Treasury would, in-essence, be an inexhaustible funding source, you gleefully swarmed at that trough; **mandating** that students, staff and faculty be injected with LIABILITY IMMUNITY protected mRNA needles . . . consciously “contributing” to the billions in-profit for Big Pharma.

You had complete foreknowledge that your Big Pharma fund-raising prospects would not be encumbered with the established development protocols and customary proofs that lead to a truly competent product; unassailable technically, legally and medically. Despite being aware that such decency had not occurred, that only an EUA was in-place, you regurgitated *ad nauseam* “**safe & effective!**” **Cornell administrators spewed that fictitious rant in November 2020 . . . prior to the EUA approval meeting !!** And the rest of you continuously spewed that lie prior to unbiased real world data (such as, but not limited to Reference 1).

You continue to be fully aware that the mRNA needles are **not** safe, and **not** effective, by any truthful measure. If they were “**safe & effective,**” there would be no need for LIABILITY IMMUNITY *per se*, let-alone remain the focus of never-ending PHE extensions and expansions; as HHS Secretary Xavier Becerra has done, **once again**; recently pushing expiration to 11 May 2023.

Over a year ago I was interviewed by The Stew Peters Network regarding LIABILITY IMMUNITY. Cornell and Fauci are mentioned many times. I stated (excerpted) :

(Sheridan) I have interviewed no less than sixty Cornell students who were mandated to take the ‘vaccination’ from either Pfizer or Moderna. None of them knew, and none of them were notified, prior to the needle, that they had no wherewithal, legal wherewithal, with respect to Pfizer or Moderna prior to accepting the jab. This is ‘willful misconduct’ in the area we call ‘duty to warn.’

Let me go here . . . As an automotive executive, one of my most important jobs was safety. Can you imagine if I went into my boss’s and said, ‘*Heh, ya know, we don’t need those seat belts, and those air bags, and this crashworthiness . . .*’

(Stew Peters interjecting) “ ***You’d be laughed out of there!!*** ”

(Sheridan continues) . . . we’ll just do LIABILITY IMMUNITY boss! Okay? We can get rid of all our defense lawyers, we can get rid of all the plaintiffs. And when a mother and their child gets hurt in our vehicle, we just say, ‘*Heh, we got LIABILITY IMMUNITY!*’

And oh by the way, we’re mandating that you buy it (the vehicle) again, and put your children in it again. We’re going to do with automotive safety what the pharmaceutical industry and what Congress has done with so-called vaccines. Can you imagine how quickly I’d be fired for proposing such nonsense!

(Stew Peters) “***Yeah, the notion would be absolutely ridiculous that anybody would accept that on its face!*** ”

Several Cornell students that I had interviewed, all of whom were injected by coercion, watched the following, and thereafter shared their ire and directed its verbiage at the Cornell administrators.

I have received emails from other viewers which stated that, were it not for my interview, they would have unknowingly submitted to their employer mandates. The LIABILITY IMMUNITY issue alone was persuasive in their rejection of the mRNA needle. Note: These results occurred **prior** to publication of Reference 1.

But my interview regarding the criminality of coerced mRNA injections and the associated scheme of LIABILITY IMMUNITY came too late to prevent Reference 3:

Ivy League University Administrator Culpability in the Horrific Pfizer “vaccine” Injury Inflicted Upon Mrs. Jummai Nache and Her Family

We conclude with Reference 3: Mrs. Jummai Nache and her family. Accurate perspective partially involves the following torrid fact regarding the twenty Ivy League administrators; recipients of this letter: **None of you, to this day, can declare with absolute certainty the precise contents of the mRNA needle(s) that you coerced into the veins and arteries of your students, staff and faculty:**

If there is a single piece-of-evidence that provides a 'preponderance of truth,' which further confirms your criminal status, it is *that* ongoing putrid reality.

Mrs. Jummai Nache was injected under threats to employment as a Medical Assistant; coerced by *her* Big Academia employer, the University of Minnesota. Other than two mRNA needles from Pfizer-BioNTech (Lot EK9231 and Lot EL9262), the UMinn criminals are *also* incapable of declaring the precise contents of the needles that ended Jummai's life, as she and her family had previously known it:

I now direct you to Attachment 2. A photo progression record . . . a record that all of you contributed to. Take a look . . . **take a good loooooooooong look.**

CONCLUSION

Of the many institutions embedded in the global COVID-19 crime syndicate, none are more insidious than Big Academia. **Of the latter, none are more grotesque, and DIRECTLY culpable, than the Ivy League especially the current administrators of Cornell University:**

If just one Ivy League University had unmasked the criminal character, purpose, and culprits of the so-called COVID-19 pandemic, that entire scheme would have collapsed; and millions of lives and livelihoods would have been spared . . . **This is especially true if it had been my alma mater, Cornell University.**

On Page 2 above, I reviewed questions that I posed back in 2020 to Cornell alumnus Mr. Anthony Fauci, such as the GoF funding question. I also discussed Nuremburg-*esque* levels of Ivy League avoidance of **basic** COVID-19 issues; issues that, by virtue of alleged and highly promoted expertise and authority, the Ivy League has historically made claim to. What explains your behavior? My (personal) contextual response involves your **betrayal of the public trust**. The Addendum is offered as context (overleaf).

All twenty of you can easily be connected to the origins and portent of Reference 1: "*Cause Unknown*" : *The Epidemic of Sudden Deaths in 2021 and 2022*. According to its author, the enclosure undercounts the horrific blight of the COVID-19 "vaccine" deaths. On the basis of your connectability to those deaths:

I hereby formally demand that all of you resign, effective immediately.

Cordially,

Paul V. Sheridan
Cornell MBA : Class of 1980
