Nearly every division of the US Department of Justice should be in pursuit of Subjects 1 and 2. The recent Attorney General Todd Blanche memo on the National Fraud Enforcement Division :

“The Department of Justice’s National Fraud Enforcement Division investigates and prosecutes those who commit fraud against the American people.”

“There was nothing ‘brilliant’ about Operation Warp Speed. There is nothing ‘great’ about a ‘vaccine’ that is so dangerous that its vested interests must cower behind LIABILITY IMMUNITY.”

Page 9

“The issue of willful misconduct is more than covered with evidence that is already in the public domain. In my opinion, we are well into criminal conduct. So we have the issue of voiding the LIABILITY IMMUNITY provision; we are way beyond having that voided with evidence that is already in the public domain.”

Similar to a Congressional search for COVID-19 justice, Department(s) of Justice investigations that are focused solely upon Mr. Anthony Fauci, at the exclusion of BigPharma and other COVID-19 criminals (such as BigMedical and BigHospital), will be catastrophic; a long-term disaster for both American and global society. This prosecutorial error must be avoided by the DOJ.

Protecting the COVID-19 Crime Syndicate was **thee** priority behind Fauci taking-the-fifth at the US Senate. But a key participant in the COVID-19 crimes; another group that they were compelled to protect was staff at the Wuhan Laboratory in China.

Page 28

Fauci taking-the-fifth on 29 July 2026 occurred outside the coverage of the AutoPen pardon.

There is no logical or legally defensible or relevant connection between the genesis of a presidential pardon borne at the close of the American Civil War (President Andrew Jackson); and the recent acts of treason committed by the COVID-19 Crime Syndicate, with Mr. Anthony Fauci as its Front Man.

The notion that an AutoPen pardon shields the traitors of COVID-19 is absurd, it is utterly repulsive to American patriots; and must be eliminated.
